SUMMARY OF ECONOMIC DEVELOPMENTS

Procurement of major export crops declined marginally to 50,276.0 tonnes in the quarter ending June 2018, compared to 52,020.2 tonnes recorded in similar period in 2017, mainly driven by tobacco as procurement of coffee, sisal, and tea increased. Value of gold and diamond produced by large scale miners increased to USD 367.3 million from USD 347.2 million in the same period.

Annual headline inflation decreased to an average of 3.6 percent in the quarter ending June 2018 from 6.0 percent in the corresponding quarter in 2017, mainly on account of a decrease in food inflation. The inflation rate was in line with the EAC and SADC convergence criteria of not more than 8.0 percent and between 3 and 7 percent, respectively.

Extended broad money supply (M3) grew by 6.0 percent in the year ending June 2018, lower than 8.4 percent in the year ending March 2018 but similar to the growth recorded a year earlier. Interest rates offered by banks on both loans and deposits were lower in the quarter to June 2018 compared with the similar quarter in 2017.

Central government resource envelope, which comprises revenue and grants, amounted to TZS 4,565.0 billion, whereas expenditure was TZS 6,195.0 billion.

External debt stock increased by USD 346.4 million from the stock at the end of the preceding quarter to USD 20,503 million at the end of June 2018, largely on account of new disbursements and accumulation of interest arrears. Meanwhile, domestic debt stock rose by TZS 573.6 billion from the stock at the end of the preceding quarter to TZS 14,732.2 billion.

The overall balance of payments recorded a surplus of USD 119.6 million in the quarter ending June 2018 compared to a surplus of USD 543.3 million in the similar quarter in 2017. Gross official reserves amounted to USD 5,483.9 million at the end of June 2018 and were sufficient to cover 5.6 months of projected import of goods and services, excluding FDI financed imports.

In Zanzibar, cloves procurement declined by more than a half compared with the similar quarter in 2017, largely explained by the cyclical nature of the crop. Headline inflation eased further to an average of 2.9 percent from 4.8 percent and 6.8 percent in the quarters ending March 2018 and June 2017, respectively.

The Zanzibar Government resource envelop amounted to TZS 182.8 billion, whereas expenditure was TZS 242.9 billion. Zanzibar debt stock, domestic and foreign, amounted to TZS 472 billion at the end of June 2018, an increase of TZS 31.2 billion and TZS 100.6 billion from the stock at the end of March 2018 and June 2017, respectively.

Current account dropped to a deficit of USD 18.0 million from a surplus of USD 3.1 million in the corresponding quarter in 2017, explained by increase in imports.

In EAC and SADC regions, inflation eased to an average of 2.1 percent and 5.6 percent from 2.9 percent and 6.0 percent in the quarter to March 2018, respectively. The moderation in inflation was largely due to easing in prices of food in most of the countries.

1.0 OUTPUT AND PRICES

Procurement of Crops

Procurement of major traditional export crops declined marginally to 50,508.6 tonnes in the quarter ending June 2018 from 52,545.7 tonnes recorded in similar period in 2017, mainly driven by tobacco as procurement of coffee, sisal, and tea increased (**Table 1.1**). Procurement of tea and coffee increased because of good weather in most of the growing areas, while that of sisal was attributed to increased demand for sisal products in the world market.

Production of Gold and Diamond

Value of gold and diamond produced by large scale miners increased to USD 367.3 million in the quarter ending June 2018 from USD 347.2 million recorded in the corresponding quarter in 2017 (**Table 1.2**). The value of gold produced increased by 4.7 percent, year-on-year driven by price factor as the volume recorded an annual decline of 0.6 percent. The value of diamond produced went up on account of both volume and price factors.

Food stocks held by the National Food Reserve Agency (NFRA) were slightly lower in the quarter ending June 2018 than in the preceding quarter and the corresponding quarter in 2017. Food stocks held by NFRA amounted to 63,844 tonnes at the end of June 2018¹. During the quarter, the Agency purchased 2,407.2 tonnes of maize and sold 22,213.6 tonnes to private traders and Disaster Relief unit of the Prime Ministers' office (**Table 1.3**).

Wholesale Prices of Food Crops

Wholesale prices of all major food crops eased in the quarter ending June 2018 compared to the preceding quarter.

¹ The NFRA food stocks exclude those held by private traders, which normally constitute the largest share of total stocks in the country.

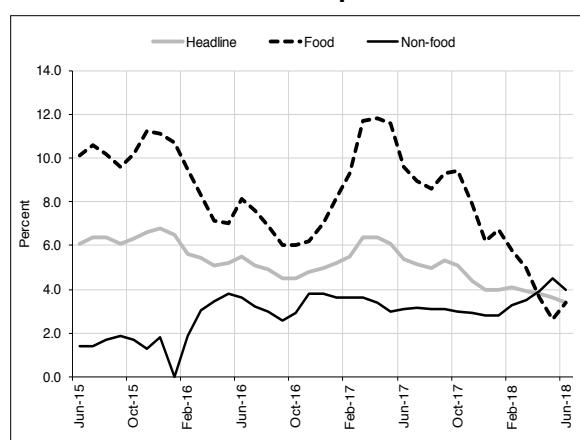

In comparison with the corresponding quarter in 2017, prices of all major food crops decreased, except for rice (**Table 1.4**). The decline in prices was attributed to good harvest following favorable weather conditions.

Inflation

Annual headline inflation averaged 3.6 percent in the quarter ending June 2018, lower than 6.0 percent in the corresponding quarter in 2017 mainly driven by food inflation. Food inflation eased to an average of 3.2 percent from 11.0 percent, while non-food inflation averaged 4.1 percent compared with 3.2 percent (**Chart 1.1**).

2.0 MONETARY AND FINANCIAL DEVELOPMENTS

Money Supply and Credit

Annual growth of money supply—extended broad money supply (M3)—slowed to 6.0 percent in June 2018, from 8.4 percent in March 2018, but was similar to that of the corresponding period in 2017 (**Chart 2.1**). The moderate growth of money supply mirrored general slowdown in net foreign assets of the banking system (**Table 2.1** and **Chart 2.2**). Much of the slowdown occurred in foreign exchange holdings of the Bank of Tanzania following the general decline in official inflows against sizable foreign obligations (**Table 2.1**).

Net credit to the government from the banking system recorded a year-on-year contraction of 8.2 percent in June 2018 compared to a growth rate of 0.6 percent in March 2018 and contraction of 20.4 percent in June 2017. This follows a continued build-up of government deposits at the Bank of Tanzania and slowdown in government borrowing from banks to provide room for expansion of credit to the private sector. Credit to the private sector grew by 4.0 percent in the year to June 2018, up from 1.2 percent and 1.3 percent in the year ending March 2018 and June 2017, respectively (**Chart 2.3**).

During the quarter to June 2018, banks' credit to personal activities, building and construction, hotel and restaurants, transport and communication, and mining and quarrying activities increased, while loans to tourism, trade, and agricultural activities declined (**Chart 2.4**). Personal loans registered a significant increase, reflecting reclassification of salaried loans previously treated as part of loans to other services in favor of health and education. Personal loans and trade activities continued to account for the largest share in banks' credit to private sector, accounting for 27.4 percent and 20.5 percent, respectively (**Chart 2.5**).

Interest Rates

In the quarter ending June 2018, interest rates charged by banks on loans and offered on deposits were relatively low compared to rates recorded in the preceding quarter and corresponding quarter in 2017. The overall deposits rate declined to an average of 8.37 percent in the quarter ending June 2018 from 8.99 percent and 10.26 in the quarter ending March 2018 and June 2017 respectively. Meanwhile, the overall lending rate averaged 17.46 percent compared with 17.69 percent in the preceding quarter and 17.84 percent in the corresponding quarter in 2017. The easing in lending rates is partly associated with the deliberate move by some commercial banks to reduce their benchmark lending rates.

One-year lending rate decreased by 68 basis points from the rate registered in the quarter ending June 2017 to 17.95 percent, while one-year deposits rate declined by 316 basis points to an average of 8.93 percent. As a result of this, the spread between one-year lending and deposits rates widened (**Table 2.2**).

During the quarter, the central government raised TZS 1,215.8 billion from domestic debt market, of which TZS 591.97 billion through Treasury bills and TZS 623.8 billion Treasury bonds. Total domestic debt raised during 2017/18 amounted to TZS 6,675.2 billion, of which TZS 4,002.5 billion was Treasury bills and TZS 2,672.7 billion Treasury bonds.

Domestic debt that fell due for payment during the quarter to June 2018 amounted to TZS 1,366.2 billion, compared with TZS 1,951.7 billion in the preceding quarter. Out of the debt that fell due, principal amount of TZS 1,029.3 billion was rolled over and interest component of TZS 337.0 billion was paid out.

4.0 EXTERNAL SECTOR PERFORMANCE

The overall balance of payments narrowed to a surplus of USD 119.6 million, from a surplus of USD 543.3 million in the similar quarter in 2017. Gross official reserves amounted to USD 5,483.9 million at end of June 2018, sufficient to cover 5.6 month of projected import of goods and services, excluding imports financed by foreign direct investment.

Current Account

The current account registered a deficit of USD 786.6 million in the quarter to June 2018 compared with a deficit of USD 658.0 million during the quarter ending June 2017. These developments were explained by high value of imports coupled with shrinkage in secondary income account net surplus. Earnings from export of goods and services amounted to USD 1,854.1 million during the quarter to June 2018, while expenditure on import of goods and services was USD 2,495.2 million. Noteworthy, transport equipment; building and construction materials; industrial raw materials; and oil accounted for larger share in imports.

Services and Income Account

Services account balance was a surplus of USD 302.9 million in the quarter ending June 2018 compared with a surplus of USD 322.8 million in the corresponding quarter in 2017, on account of higher services payments. During the period, primary income account balance improved to a deficit of USD 301.3 million, from a deficit of USD 312.0 million in the quarter to June 2017 following an increase in income receipts and a decline in income payments, particularly interest payments (**Table 4.1**).

World Commodity Prices

Quarter-on-quarter comparison reveals that average world market prices of cotton, wheat, maize and oil rose in the quarter to June 2018, while those of coffee and gold declined (**Table 4.2**). The decline in coffee prices was a reflection of higher supplies in the world market following harvests season, notably in Brazil. Prices of cotton, wheat and maize increased due to low production in major growing countries following unfavorable weather conditions. Meanwhile the price of crude oil and white petroleum products increased due to tight supply following continued production cut by Organization of Petroleum Exporting Countries (OPEC) members coupled with higher demand. On the other hand, price of gold declined largely on the expectation of increase in interest rate by the US Federal Reserve.

5.0 ECONOMIC DEVELOPMENTS IN ZANZIBAR

Procurement of Cloves and Seaweeds

Cloves procured during the quarter ending June 2017 were 3.7 tons, a fall from 19.5 tonnes in similar quarter in 2017, mostly explained by the cyclical nature of the crop. On the contrary, the volume of seaweeds procured rose to 2,051.6 tonnes from 1,316.0 tonnes recorded on account of on-going initiatives by the Government and seaweed companies to improve production, including supply of modern working tools (**Chart 5.1**).

Tourism

Tourist arrivals increased to 77,099 in the quarter ending June 2018 from 60,158 in the

corresponding quarter in 2017, associated with the ongoing promotion initiatives through international trade fairs and improvement of products and services (**Chart 5.2**). Visitors from Europe, mostly from German, Italy, Scandinavian countries, France and United Kingdom, continued to account for the largest share in tourist arrivals, at 49.0 percent, followed by Africa, at 16.1 percent. Meanwhile, the number of non-traditional visitors—mostly from Russia, China, Japan, Ukraine and Poland continued to increase in the market, partly explained by ongoing promotions.

Inflation

Annual headline inflation averaged 2.9 percent in the quarter ending June 2018 from 4.8 percent in the preceding quarter and 6.8 percent in the similar quarter in 2017, mainly driven by food inflation (**Table 5.1**). Likewise, non-food inflation declined to an average of 5.0 percent during the quarter, from 6.8 percent in the similar quarter of 2017.

Government resource envelope (including domestic revenue and grants) amounted to TZS 182.8 billion, of which TZS 178.9 billion was domestic revenue and TZS 3.9 billion grants. Domestic revenue was 11.3 percent above projections for the quarter on account of enhanced tax administration and compliance by taxpayers. All revenue categories performed above their respective targets for the quarter, except import and other taxes (**Chart 5.3**). Grants received during the quarter were above projections by TZS 2.3 billion on account of timely and higher disbursement by external development partners.

6.0 ECONOMIC DEVELOPMENTS IN EAC AND SADC

During the quarter ending June 2018, headline inflation in the East African Community (EAC) region eased to an average of 2.1 percent from 2.9 percent in the previous quarter (**Table 6.1**). With exception of Rwanda, the remaining EAC countries registered inflation declines, largely driven by food inflation. Meanwhile, increase in headline inflation in Rwanda was on account of higher costs of food, housing and transport. All EAC partner states achieved convergence criteria level of inflation of not more than 8.0 percent.

As for the SADC region, headline inflation also decreased to an average of 5.6 percent from 6.0 percent in the quarter to March 2018 (**Table 6.1**). With the exception of Mauritius, Tanzania, Angola, Mozambique, Seychelles and Zimbabwe, the remaining SADC member countries recorded increases in inflation. In Malawi, Namibia and Botswana, the rise in inflation was largely on account of increase in prices of food, while for South Africa and Swaziland it was largely attributed to higher fuel and transport costs coupled with weakening of the Rand. Rise in inflation in Zambia was mainly attributed to increase in prices of electricity and non-food items. Conversely, the fall in inflation rates in Angola, Mauritius, Seychelles and Zimbabwe was largely due to a decline in cost of food items.
