BOARD OF DIRECTORS

Prof. Benno J. Ndulu	Governor, Chairman
Dr. Natu E. Mwamba	Deputy Governor, Economic and Financial Policies (EFP)
Mr. Juma H. Reli	Deputy Governor, Administration and Internal Controls (AIC)
Mr. Lila H. Mkila	Deputy Governor, Financial Stability and Financial Deepening (FSD)
Mr. Bedason A. Shallanda	Representative from Ministry of Finance (MoF)
Mr. Khamis M. Omar	Principal Secretary to the Treasury (RGZ)
Prof. Haidari K. Amani	Director
Mrs. Esther P. Mkwizu	Director
Mr. Yona S. Killagane	Director
Mr. Omar S. Mussa	Director
Mr. Yusto E. Tongola	Secretary to the Board

SUMMARY OF ECONOMIC DEVELOPMENTS

Real GDP grew by 7.0 percent in 2014 compared with 7.3 percent in the preceding year. The growth rate was underpinned improved performance in agriculture, mining and quarrying, manufacturing, water, transport and storage, wholesale and retail trade, finance and insurance activities.

Procurement of traditional export crops during the quarter of March 2015 was 29,996.1 tonnes. Coffee and cashew nuts procurement significantly increased while that of sisal was dismal. Cotton was not procured as it was off-season. In the same period, production of gold and diamond decreased.

Food supply situation was as generally satisfactory. As a result, the stock of food held by National Food Reserve Agency was more than double of the stock held at the end of the corresponding period in 2014, and was the largest recorded stock for similar quarters. Reflecting the improved food supply in the country, wholesale prices for most food crops were lower than in the corresponding quarter in 2014.

Annual headline inflation eased to an average of 4.1 percent in the quarter ending March 2015 compared with an average of 5.5 percent in the preceding quarter and 6.0 percent recorded in the corresponding quarter in 2014. This moderation in inflation was mainly on account of a decrease in food, energy and fuel prices.

Extended broad money supply (M3) recorded an annual growth rate of 13.2 percent compared to 11.6 percent in the year ending March 2014, mainly driven by expansion in domestic credit. Credit to the private sector by banks, in particular, grew by 19.8 percent compared with 16.4 percent. Regarding interest rates, the overall deposits and lending rates decreased marginally. The spread between one-year deposit and lending rates slightly narrowed.

The primary markets for Treasury bills and bonds were broadly buoyant, with subscriptions significantly surpassing amount offered. Nonetheless, a sizeable part of the bids had deeply discounted prices. Yields on the government securities declined from levels recorded in the corresponding quarter in 2014. Liquidity in the inter-bank cash market was generally ample.

The inter-bank foreign exchange market was characterized by high demand for foreign exchange, driven largely by external factors, notably the strengthening of the US dollar, which was reflected in rapid depreciation of the shilling as was for many currencies across the world, .

The budget realized a deficit of TZS 1,090.4 billion which was mainly financed through domestic borrowing following delays in disbursement of external non-concessional loans. External debt stock reached USD 14,697.7 million at the end of March 2015. The stock of domestic debt was TZS 7,608.2 billion.

The current account balance recorded a deficit of USD 830.5 million in the quarter of March 2015 compared with a deficit of USD 1,562.3 million recorded the corresponding period in March 2014. The improvement was driven by the increase in export of goods and services.

For Zanzibar, real GDP grew by 7.0 percent in 2014 compared to 7.2 percent in 2013. The main growth drivers were services and industry. Growth in agriculture, fishing and forest activity slowed down following a decline in production of cloves. Procurement of cloves decreased in the quarter of March 2015 from corresponding period in 2014, largely due to cyclical nature of the crop. Seaweed procurement also decreased following a decrease in world market prices coupled with disease.

Annual headline inflation averaged 2.0 percent in the quarter of March 2015 compared with 5.6 percent in the corresponding period in 2014, largely driven by decrease in prices of fuel and some food items.

Government budgetary operations registered a deficit of TZS 12.9 billion after grants and adjustment to cash. The current account balance recorded a deficit of USD 11.3 million compared to a surplus of USD 7.7 million, mainly on account of decrease in clove exports.

Headline inflation in the East African Community countries averaged of 4.5 percent. Inflation rates in all the countries were within the convergence criteria of not more than 8.0 percent. In the SADC region, inflation averaged 6.0 percent compared with 5.6 percent recorded in preceding quarter. Only Botswana, Mauritius, Mozambique Seychelles and Tanzania managed to achieve the convergence criteria of less than 5.0 percent.

1.0 OUTPUT AND PRICES

Overall Economic Performance

Real GDP grew by 7.0 percent in 2014 compared with 7.3 percent in the preceding year (**Chart 1.1**). The main contributors to growth were construction which accounted for 18.8 percent of the growth, wholesale and retail trade (14.3 percent), agriculture (11.6 percent), transport and storage (10.8 percent), manufacturing (7.2 percent).

Construction activity expanded on account of increased construction and maintenance of infrastructure and real estate, while growth in agriculture was driven by increased food crops production especially maize, rice, sorghum and millet, following good weather conditions and timely supply of subsidized inputs. Trade and repair activity continued to expand on account of increased traded goods (marketed output particularly crops and manufactured products) and repair of particularly motor vehicles. Growth in transport activities increased following improvement in cargo handling at Dar es Salaam port, minimization of roadblocks, the use of inland container depots and cargo freight stations as well as increase in transportation of cargo and passengers.

Sectoral Performance

Procurement of Traditional Export Crops

Procurement of Tanzania's major traditional export crops (cotton, tobacco, cashew nuts, coffee, sisal, and tea) amounted to 29,996.1 tonnes during the quarter of March 2015 compared to 21,646.2 tonnes recorded in the corresponding quarter in 2014 (**Table 1.1**). Coffee and cashew nuts procurement significantly increased while that of sisal was dismal. The increased procurement of cashew nuts was mainly associated with good weather, timely utilization of agro chemicals, streamlining operations of the warehouse system, as well as enhancement of regulations on cashew nut purchases. Conversely, procurement of tobacco and tea was lower relative to corresponding period in 2014. The decrease in the procurement of tea is attributed to dry weather condition that characterized the northern tea growing areas. For the case of cotton, there was no procurement as the quarter under review was an off season.

Table 1.1: Procurement of Traditional Export Crops

	<i>Tonnes</i>	
	Quarter ending Mar-14	Mar-15
Cotton lint		Off-season
Tobacco	2,580.9	1,857.8
Cashew nuts	0.0	6,133.1
Coffee	1,035.0	5,335.0
Sisal	7,038.6	7,327.4
Tea	10,991.7	9,342.9
Total	21,646.2	29,996.2

Source: Respective Crops Boards

Production of Gold and Diamond

Production of gold and diamond declined in the quarter ending March 2015 relative to corresponding period in 2014. Gold production declined to 7,527.1 kilograms from 8,935.3 kilograms recorded in the quarter ending March 2014. This, combined with a decline in price in the world market, led to a fall in value by 22.5 percent. Production of diamond amounted to 69,275.1 carats (worth USD 20.0 million) compared with 88,577.3 carats which were valued at USD 22.6 million in the corresponding period in 2014.

Table 1.2: Production of Gold and Diamond

Mineral type	Unit	Quarter ending			Percentage change	
		Mar-14	Dec-14	Mar-15	Dec-14 to Mar-15	Mar-14 to Mar-15

Food Supply Situation and National Food Reserve

Food supply situation in the quarter under review was as generally satisfactory as in the corresponding period in 2014. The National Food Reserve Agency (NFRA) purchased 6,630.3 tonnes of maize and 597.5 tonnes of sorghum and sold 21,757.7 tonnes to Prison Department and Disaster Coordination Unit of the Prime Minister's Office. The stock of food held by NFRA at the end of March 2015 was 452,054 tonnes, more than double of the stock held at the end of corresponding period in 2014, and was the largest recorded stock for similar quarters (**Table 1.3**). The food stock comprised of maize, sorghum and paddy.

Table 1.3: National Food Reserve Agency Stock

Period	2011	2012	2013	2014	2015	Tonnes

Source: National Food Reserve Agency

Wholesale Prices of Major Food Crops

Wholesale prices of all major food crops (maize, rice, round potatoes, beans, sorghum, and finger millet) were lower in the quarter of March 2015 than in the corresponding quarter in

2015, except for rice and beans which recorded price increase (**Table 1.4**). The decline in prices for most food crops was a clear reflection of improved food supply situation following bumper harvest during 2014/15 crop season.

Table 1.4: National Average Wholesale Prices for Selected Food Crops

Crops	Quarter ending			Tzs per 100 Kilogram	
	Mar-14	Dec-14	Mar-15	Dec-14 to Mar-15	Mar-14 to Mar-15
Maize	53,764	38,607	38,025	-1.5	-29.3

Inflation Developments

Annual headline inflation averaged 4.1 percent in the quarter of March 2015 compared with 5.5 percent recorded in the preceding quarter and 6.0 percent recorded in the corresponding quarter in 2014. The moderation in inflation was on account of decline in food, energy and fuels prices. Inflation for food and non-alcoholic beverages was 5.2 percent compared with 6.5 percent recorded in the corresponding quarter in 2014, while that for non-food was much lower at 2.6 percent compared with 6.0 percent (**Chart 1.1**).

2.0 MONETARY AND FINANCIAL MARKETS

Money Supply and Credit Developments

During the year ending March 2015, extended broad money (M3) grew by 13.2 percent compared with 11.6 percent recorded in the corresponding period in 2014, due to increase in domestic credit (**Table 2.1** and **Chart 2.1**). Banks' credit to the private sector grew by 19.8 percent compared with 16.4 percent recorded in the year ending March 2014. During the period under review, banks' net claims on government increased by TZS 1,524.7 billion compared with an increase of TZS 955.3 billion in the corresponding period in 2014.

Chart 2.1: Annual Growth of Extended Broad Money Supply and its Sources

Note: LHS denotes left hand scale and RHS, right hand scale.

Source: Bank of Tanzania

The private sector credit growth increased to all major economic activities with exception of agriculture. Credit to trade activities grew by 35.7 percent, followed by building and construction (27.9 percent) and transport and communication (23.7 percent) (**Chart 2.2**).

Chart 2.2: Annual Growth of Banks' Credit to Major Economic Activities

Source: Bank of Tanzania

Trade, personal and manufacturing activities held the largest share of outstanding credit to private sector by banks. The share credit for agriculture activity to total outstanding credit was in close range of the top four activities that held much of the credit, despite recording lower credit growth compared to other activities during the quarter (**Chart 2.3**).

Chart 2.3: Share of Banks' Outstanding Credit to Major Economic Activities

Source: Bank of Tanzania

Interest Rates Developments

During the quarter under review, banks' lending and deposit rates were generally lower compared with the corresponding quarter in 2014. Overall deposit rate averaged 8.07 percent compared with 8.75 percent in the corresponding quarter in 2014. Interest rate on one-year deposits was 10.81 percent, lower than 11.37 percent in the quarter ending March 2014.

Overall lending rate decreased to an average of 15.87 percent from 16.59 percent registered in the corresponding quarter in 2014. Interest rate on one-year loans averaged 14.18 percent compared with 14.83 percent recorded in the corresponding quarter in 2014. In line with these developments, the spread between the one-year deposit and lending rates narrowed to 3.37 percentage points from 3.46 percentage points (**Table 2.2**).

Table 2.2: Selected Banks' Interest Rates (Quarterly Average)

Financial Markets

During the quarter, Treasury bills worth TZS 740.0 billion were offered compared with TZS 765.0 billion offered in the corresponding quarter in 2014. Amount tendered summed to TZS 2,900 billion compared with TZS 1,700 billion. Bids worth TZS 1,300 billion were successful compared with TZS 910.0 recorded in the quarter ending March 2014. As a result of high demand as reflected by the value of bids, overall weighted average yield decreased to an average of 11.98 percent from 13.82 percent (**Chart 2.4**).

Chart 2.4: Treasury Bills Market Performance

Note: LHS denotes left hand scale and RHS, right hand scale

Source: Bank of Tanzania

In the Treasury bonds market, the Bank offered Treasury bonds worth TZS 319.0 billion for all maturities compared with TZS 196.2 billion issued in the corresponding quarter in 2014. The value of tendered bids was TZS 612.4 billion, up from TZS 431.7 billion tendered in corresponding period in 2014. Successful bids amounted to TZS 307.1 billion compared with TZS 225.5 billion recorded in the quarter ending March 2014.

The inter-bank cash market recorded transactions worth TZS 2,390.3 billion compared with TZS 2,586.7 billion in the quarter ending March 2014. Overnight transactions amounted to TZS 1,760.15 billion or 74.0 percent of total transactions. Overall inter-bank rate averaged 7.91 percent as compared to 8.07 percent in the corresponding quarter in 2014, suggesting a relatively ample liquidity in the market (**Chart 2.5**).

Chart 2.5: Inter-bank Cash Market Developments

Note: LHS denotes left hand scale and RHS, right hand scale

Source: Bank of Tanzania

The Bank of Tanzania conducted repurchase agreements (repo) with banks worth TZS 295.5 billion for liquidity management, compared with TZS 327.5 billion in the corresponding quarter in 2014. The repo rate averaged 4.21 percent compared with 4.36 percent (**Chart 2.6**).

Chart 2.6: Repo Market Developments

Note: LHS denotes left hand scale and RHS, right hand scale

Source: Bank of Tanzania

Transactions in the inter-bank foreign exchange market amounted to USD 582.7 million compared with USD 515.7 million traded in the corresponding quarter in 2014. The Bank of Tanzania participated in the market, selling USD 251.8 million mostly for liquidity management compared with USD 270.1 million sold in the corresponding quarter in 2014. The shilling depreciated relative to corresponding quarter in 2014, trading at an average of TZS 1,775.2 per US dollar from an average of TZS 1,624.4 per US dollar (**Chart 2.7**).

Chart 2.7: Inter-Bank Foreign Exchange Rate Market Transactions

3.0 PUBLIC FINANCE

Government Budgetary Operations

During the quarter ending March 2015, domestic revenue and grants amounted to TZS 2,824.3 billion, while expenditure (including expenditure float) was TZS 3,663.8 billion. Therefore, a deficit of TZS 1,090.4 billion was realized, and was mainly financed by domestic borrowing due to delays in disbursement of grants from development partners and external non-concessional loans.

Revenue Performance

Revenue collection by the Central Government amounted to TZS 2,616.7 billion, below the target by 15.1 percent. Tax revenue was TZS 2,460.2 billion, equivalent to 86.0 percent of the estimate and accounted for 91.8 percent of total revenue for the quarter. The under-performance was partly explained by a decline in importation of taxable and dutiable goods. Meanwhile, grants disbursed by development partners amounted to TZS 143.3 billion during the quarter against projection of TZS 212.8 billion (**Chart 3.1**).

Chart 3.1: Government Resources for the Quarter Ending March 2015

Source: Ministry of Finance

Expenditure

Expenditure for the third quarter of 2014/15 amounted to TZS 3,663.8 billion or 75.0 percent of budget estimate, out of which recurrent expenditure was TZS 2,730.7 billion and the balance was for development expenditure. Recurrent expenditure surpassed the estimates while development expenditure fell short of the projections (**Chart 3.2**). The lower than projected development expenditure due to smaller domestic revenue collections and delays in

disbursements of project funds from development partners and external non-concessional loans.

Chart 3.2: Government Expenditure for the Quarter Ending March 2015

Source: Ministry of Finance

National Debt

External debt stock amounted to USD 14,697.7 million at the end of March 2015, an increase of USD 11.8 million from the end of the preceding quarter. The increase was on account of new disbursements. Disbursed outstanding debt accounted for 90.0 percent of external debt stock and the balance was interest arrears.

In terms of borrower category, the external debt owed by the Central Government decreased by USD 125.1 million from the level reached at the end of the preceding quarter, mainly due to exchange rate effect of the currencies in which the debt is denominated against the US dollar. On annual basis, the central government debt increased by USD 1,070.3 million. The amount of external debt and shares with respect to borrower categories indicates the Central Government remained dominant followed by the private sector (**Table 3.1**).

Table 3.1: External Debt Stock by Borrower Category

Borrower	Mar-14		Dec-14		Mar-15		<i>Millions of USD</i>
	Amount	Share (%)	Amount	Share (%)	Amount	Share (%)	
Central government	10,688.8	79.4	11,884.2	80.9	11,759.1	80.0	
DOD	9,869.8	73.3	11,056.0	75.3	10,913.1	74.3	
Interest arrears	819.0	6.1	828.2	5.6	846.0	5.8

Debt owed to various creditor categories increased during the quarter due to new disbursements, except for multilateral creditors (**Table 3.2**). The debt owed to multilateral creditors decreased by USD 201.6 million, mainly on account of appreciation of USD against Special Drawing Rights (SDR) and African Unit of Account (AUA).

During the quarter under review, new loans worth USD 3.7 million were contracted by the private sector. For the year ending March 2015, external debt contracted amounted to USD 575.4 million, out of which USD 300.0 million were contracted by the Central Government and the balance by the private sector.

New disbursements to the Central Government and the private sector during the quarter ending March 2015 amounted to USD 509.8 million, out of which USD 491.6 million was received by the Central Government. On annual basis, a total of USD 2,198.9 million was disbursed, out of which USD 1,924.3 million was received by the Central Government and USD 274.6 million by the private sector.

External debt payments during the quarter amounted to USD 95.5 million, out of which USD 41.9 million was principal repayments and the balance of USD 53.7 million was interest payments and other charges. For the year ending March 2015, external debt service amounted to USD 403.4 million, out of which USD 205.2 million was principal repayment, and USD 195.9 million and USD 2.2 million was interest and other charges, respectively.

The stock of domestic debt at the end of March 2015 amounted to TZS 7,608.2 billion, an increase of TZS 126.4 billion from the end of the preceding quarter. On annual basis, domestic debt stock increased by TZS 1,143.8 billion from TZS 6,464.4 billion recorded at the end of the corresponding quarter in 2014. The increase was mainly driven by issuance of more government securities than redemptions. Treasury bonds accounted for 68.7 percent of the outstanding domestic debt, followed by Treasury bills (26.5 percent) (**Table 3.3**).

During the quarter, the Government raised TZS 978.4 billion from the domestic market, out of which TZS 650.0 billion was through Treasury bills and TZS 328.4 billion Treasury bonds. The amount that fell due for redemption was TZS 978.2 billion, out of which principal amounting to TZS 702.0 billion was rolled over, while principal and interest of TZS 90.1 billion and TZS 186.1 billion, respectively, were paid out of Government resources.

4.0 EXTERNAL SECTOR PERFORMANCE

Current Account

Current account balance significantly improved to a deficit of USD 863.3 million compared with a deficit of USD 1,562.3 million recorded in the corresponding quarter in March 2014. This was mainly on account of improved performance of goods and services export coupled with decline in imports (**Table 4.1**).

Table 4.1: Current Account Balance

Exports

Exports of goods amounted to USD 1,600.3 million compared with USD 1,262.9 million recorded in the quarter ending March 2014, following good performance of both traditional and non-traditional exports. The value of traditional exports improved to USD 298.0 million from USD 236.5 million recorded in the corresponding quarter in 2014. Non-traditional exports increased by 26.9 percent to USD 1,093.6 million, with exports of minerals, manufactured goods and re-exports contributing the largest increase (**Table 4.2**).

Table 4.2: Exports by Type of Commodity

Imports

The value of goods import declined as importation of intermediate goods and other consumer goods decreased (**Table 4.3**). The decrease in the value of oil imports was due to falling of prices in the world market and lower oil import volume during the quarter under review.

Table 4.3: Goods Import

Services and Primary Income Account

Services account balance recorded a net surplus of USD 243.7 million, which was more than double of the level of surplus recorded in the corresponding quarter in 2014. The improved performance was on account of increased travel receipts associated with continuing efforts of promoting tourism in the country. The primary income account recorded a deficit following increase in payments that were recorded at USD 201.6 million compared with USD 185.9 million recorded in the corresponding period in 2014 (**Table 4.4**).

World Commodity Prices

Average world market prices for cotton, tea (Mombasa), sisal, cloves and gold were higher while prices for coffee, tea (average) and oil declined in the quarter of March 2015 relative to the preceding quarter (**Table 4.5**). The cotton price increased largely due to strong demand in China while price for tea (Mombasa) increased mainly due to low production in Kenya following dry weather conditions. The sisal price increased due to a rise in global demand. Prices for coffee and tea (average) declined due to weak demand. Oil prices declined due to excess supply and weak demand while price of gold increased following increase in demand for gold as a safe investment.

5.0 THE ZANZIBAR ECONOMY

Output

During 2014, GDP at constant (2007) market prices grew by 7.0 percent, compared to 7.2 percent recorded in 2013, with gross value added increasing to TZS 1,115.4 billion from TZS 816.9 billion recorded during 2013 (**Chart 5.1**). The main sectors which contributed to GDP growth include services and industry, which grew by 9.8 percent and 6.0 percent respectively. Meanwhile agriculture, fishing and forest declined by 0.4 percent mainly due to decline in production of cloves during the year under review. Zanzibar's per capita GDP increased to TZS 1,552,000 in 2014 from TZS 1,384,000 recorded in 2013, equivalent to USD 939 and 866, respectively.

Chart 5.1: Annual Real GDP Growth Rate

Source: Office of Chief Government Statistician

Procurement of Major Export Crops

Procurement of cloves amounted to 1,341.7 tonnes compared with 1,422.8 tonnes in the corresponding quarter in 2014, largely due to cyclical nature of the crop. Seaweed procurement also decreased to 4,046.5 tonnes from 4,463.4 tonnes, following a decrease in world market prices coupled with disease (**Chart 5.2**).

Chart 5.2: Zanzibar Quarterly Procurement of Major Export Crops

Notes: Q denote Quarter

Manufacturing Activity

Production of bread and soft drinks decreased compared with the corresponding quarter in 2014. However, production of mineral water, juice, wheat flour, noodles and rubber rose on account of increased demand (**Table 5.2**).

Table 5.2: Zanzibar Production of Selected Manufactured Commodities

Inflation Developments

Annual headline inflation averaged 2.0 percent in the quarter under review compared with from 5.6 percent in the quarter ending March 2014. The decrease occurred mostly in the prices of fuel and some food items. Non-food inflation dropped to 1.3 percent from 8.7 percent, mainly on account of decrease in fuel inflation. Food inflation averaged 2.7 percent compared with 2.8 percent recorded in the corresponding quarter in 2014 (**Table 5.3**).

Government Budgetary Operations

During the quarter of March 2015, Zanzibar's government budgetary operations registered a deficit of TZS 12.9 billion after grants and adjustment to cash. Total resources amounted to TZS 106.1 billion, out of which TZS 93.6 billion was from domestic sources and the balance was grants. Tax revenue amounted to TZS 90.6 billion, or 5.7 percent below the target while non-tax revenue was 15.6 percent above the target (**Chart 5.3**). Total grants disbursed amounted to TZS 6.8 billion or 32.8 percent below projection for the period. Value added tax and excise duties (local) accounted for the largest share of government revenue, followed by import tax (**Chart 5.4**).

Chart 5.3: Zanzibar Government Revenue Collections by Source

Source: Ministry of Finance Zanzibar.

Chart 5.4: Percentage Shares of Sources of Government Revenue in Zanzibar

Source: Ministry of Finance - Zanzibar

Government expenditure during the quarter amounted to TZS 123.3 billion, out of which TZS 88.8 billion was recurrent expenditure and the balance was development expenditure (**Chart 5.5**). The development expenditure was 41.0 percent above estimate for the quarter, mainly on account of higher than projected donor funds disbursements for development projects.

Chart 5.5: Zanzibar Government Expenditure by Component

Source: Ministry of Finance - Zanzibar

Debt Developments

Zanzibar debt stock amounted to TZS 317.2 billion at the end of March 2015 compared with TZS 314.3 billion recorded at the end of the preceding quarter. External debt amounted to USD 121.9 million compared with USD 124.9 million registered at the end of December 2014 and accounted for 68.7 percent of the total debt stock. Debt guaranteed by the Union Government accounted for 87.2 percent of the total external debt stock and the balance was non-guaranteed debt. External debt due to multilateral creditors was dominant, followed by bilateral creditors (**Chart 5.6**).

Chart 5.6: Zanzibar External Debt by Creditors as at the end of March 2015

Source: Ministry of Finance - Zanzibar

Debt maturing beyond 20 years dominate the profile of total external debt, followed by debt maturing in less than 10 years (**Table 5.4**).

External Sector Developments

Current Account

Zanzibar current account balance recorded a deficit of USD 11.3 million compared to a surplus of USD 7.7 million recorded during the preceding quarter, mainly on account of decrease in clove exports (**Table 5.8**).

Exports

The value of goods export decreased significantly to USD 8.0 million from USD 34.1 million in the corresponding quarter in 2014, mainly driven by decrease in volume of clove exports.

The value of cloves exported declined by 75.4 percent to USD 6.9 million from the value in the corresponding quarter in 2014, due to the cyclical nature of the crop (**Table 5.9**).

Services and Income Account

Services account balance recorded a surplus of USD 21.0 million compared with a surplus of USD 21.8 million registered during the corresponding quarter in 2014, following a decrease in receipts from tourism-related activities despite a decrease in payments (**Table 5.11**).

6.0 ECONOMIC DEVELOPMENTS IN THE EAC AND SADC

During the quarter ending March 2015, inflation rates in East African Community (EAC) countries averaged 4.5 percent compared with 3.7 percent recorded in the preceding quarter (**Table 6.1**). With the exception of Uganda and Rwanda, inflation in other EAC countries increased, largely on account of an increase in food prices. The decline of inflation in Uganda and Rwanda was largely driven by easing of food prices following improved food supply. Overall, all EAC countries attained the convergence criteria level of inflation of a maximum of 8.0 percent.

Inflation in the SADC region eased to 6.0 percent in the quarter of March 2015 from 5.6 percent recorded in the preceding quarter (**Table 6.1**). Inflation in SADC member countries increased with exception of Angola, Malawi, Swaziland and Zambia. In Zambia, inflation decreased mainly due to fall in prices of food, tobacco, and housing, while in Swaziland inflation decreased largely due to a fall in costs of transport, food, alcoholic beverages, tobacco, clothing and footwear. Conversely, inflation increased in South Africa, Seychelles and Mozambique largely on account of a rise in prices of food items. In Botswana, inflation rose as a result of an increase in costs of health and household equipment. Botswana, Mauritius, Mozambique and Seychelles achieved the convergence criteria level of inflation rate of less than 5.0 percent. Malawi was the only country that recorded double digit inflation.

Notes: 1) Headline Inflation

2) Underlying Inflation

* Adjusted for seasonal movements or seasonal variations, which refer to identical, or almost identical, patterns that time series appears to follow during the corresponding months (quarters) of successive years. Such movements are due to recurring events, which take place annually, for example the increase of food prices during Ramadhan.

8.0 GLOSSARY

Average Inflation Rate

Inflation is defined as the rate at which the average level of domestic prices is increasing over a period of time.

Currency in Circulation outside Banks

Notes and coin accepted as legal tender in the domestic economy, excluding amounts held by the banking system.

Bank Rate

The Central Bank Rate which is determined by the Monetary Policy Committee for signaling the direction of the monetary policy.

Discount Rate

The interest rate Bank of Tanzania charges on loans it extends to banks and to the Government. It uses Bank rate as a base plus a loaded factor, which change from time to time depending on the liquidity situation in the market.

Exchange Rate

The price at which one currency can be purchased with another currency, e.g. TZS per US dollar.

Lombard Facility

An overnight facility introduced by the Bank on 1st December 2003 to enable commercial banks to borrow at their own discretion, by pledging of eligible government securities as collateral.

Lombard Rate

The rate payable for the use of the Lombard Facility. The rate is based on the prevailing weighted average yield of 35-day T-bill, Repo (7 days) or overnight inter-bank rate whichever is higher in the market plus 20 percent.

Money Supply, M

The sum of currency in circulation outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely: narrow money (M1), broad money (M2), and extended broad money (M3).

Narrow Money (M1)

This consists of currency in circulation outside banking system and demand deposits.

Broad Money (M2)

This is equivalent to narrow money (M1) plus time (fixed) and savings deposits.

Extended Broad Money (M3)

It consists of broad money (M2) plus residents' foreign currency deposits.

Transferable Deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheques, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

Non-transferable Deposits

Include all claims reflecting evidence of deposit other than transferable deposits. Typical examples are saving deposits and time deposits.

Non-Food Inflation Rate

This is a measure of price movements caused by factors other than food prices.

Repurchase Agreement (REPO)

These are agreements to purchase/sale by the BoT government securities from/to financial institutions at agreed rate for a specified period, with an understanding that the financial institutions will repurchase/resell the securities to the BoT at the end of the period.

Reserve Money (M0)

The Bank of Tanzania's liabilities in the form of: currency in circulation outside the banking system, cash held by banks in their vault and deposits of banks kept with the Bank of Tanzania in national currency. Reserve money is also referred to as base money or high powered money.

Weighted Annualized Yields of Treasury Bills of all Maturities

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
