BOARD OF DIRECTORS

Prof. Benno J. Ndulu	Governor, Chairman
Dr. Natu E. Mwamba	Deputy Governor, Economic and Financial Policies (EFP)
Mr. Juma H. Reli	Deputy Governor, Administration and Internal Controls (AIC)
Mr. Lila H. Mkila	Deputy Governor, Financial Sector Stability and Deepening (FSD)
Mr. Bedason A. Shallanda	Representative from Ministry of Finance (MoF)
Mr. Khamis M. Omar	Principal Secretary to Ministry of Finance (RGZ)
Prof. Haidari K. Amani	Director
Mrs. Esther P. Mkwizu	Director
Mr. Yona S. Killagane	Director
Mr. Yusto E. Tongola	Secretary to the Board

SUMMARY OF ECONOMIC DEVELOPMENTS

Real GDP at 2001 constant prices grew by 6.7 percent during the quarter ending June 2013 compared with growth of 6.4 percent recorded in the corresponding period in 2012. This development was mainly due to higher growth rates registered in agriculture, mining, electricity, construction, hotels and restaurants, transport and communication and financial intermediation. Average **annual headline inflation** eased to 6.8 percent, from 8.5 percent recorded in the preceding quarter, due to a slowdown in food prices following improvement in food supply.

Extended broad money supply (M3) recorded an annual growth rate of 13.5 percent compared to 9.5 percent recorded in the year ending September 2012. This outturn is explained by an increase in the net claims on the government. During the quarter, banks' lending and deposit rates exhibited a declining trend when compared to the rates recorded in the corresponding period in 2012. The spread between the 12-month deposit rate and the 1-year lending rate narrowed to 2.42 percentage points from 3.00 and 2.73 percentage points recorded in the preceding quarter and quarter ending September 2012, respectively. Annual growth rate of **credit to the non-government sector** declined to 15.1 percent in September 2013 from 16.1 percent recorded in corresponding period in 2012.

Government budgetary operations (on cheques issued basis) for the quarter ending September 2013 recorded a deficit amounting to TZS 153.9 after adjustment to cash and other items with domestic revenue collections being sufficient to cover recurrent expenditures.

Total external debt stock increased by 5.4 percent to USD 12,744.3 million from the level recorded at the end of June 2013 mainly on account of new disbursements and accumulation of interest arrears. **Domestic debt stock** also increased by 9.0 percent to TZS 6,146.3 billion on of large issuance of government securities that outweighed maturing obligations.

The **current account** deficit widened to USD 1,275.7 million in the quarter ending September 2013 from a deficit of USD 726.5 million recorded in the corresponding quarter in 2012 on account of an increase in imports of goods and services. The US Dollar was exchanged at an average of TZS 1,618.5 compared to TZS 1,603.7 recorded in the quarter ending June 2013.

Zanzibar Economic Developments

Average headline inflation decelerated to 5.9 percent from 7.7 percent recorded in the quarter ending September 2012, largely due to a decline in prices of some non-food items. **Government budgetary**

operations recorded good performance with non-tax revenue exceeding its target for the quarter. Development expenditure was below the period estimates on account of delays in disbursement of project funds by Development Partners and Government. The **current account** position weakened, recording a surplus of USD 4.8 million compared with a surplus of USD 6.4 million recorded in the preceding quarter, mainly on account of an increase in income payments and value of goods import.

Regional Economic Developments

During the quarter ending September 2013, headline inflation in the **East African Community** region rose to an average of 7.1 percent from 5.5 percent recorded during the preceding quarter. The increase in inflation rate was mainly due to a rise in food and non-alcoholic beverage, and energy prices. In the **Southern African Development Community** region, the average headline inflation was 6.7 percent compared to 7.7 percent recorded in the quarter ending June 2013.

1.0 OUTPUT AND PRICES

Overall Economic Performance

Real GDP at market prices is estimated to have grown by 6.7 percent during the quarter ending June 2013, compared to a growth of 6.4 percent recorded in the corresponding quarter of 2012. Activities which recorded higher growth rates include agriculture, mining, electricity, construction, hotels and restaurants, transport and communication and financial intermediation (**Table 1.1**).

Highest growth rate was recorded in financial intermediation (15.2%),

followed by transport and communication (14.8%), and construction (12.3%). The growth in financial intermediation was mainly explained by the rise in levels of deposits and lending by commercial banks, while that of transport and communication activities was on account of an increase in volume of cargo handled, passenger transportation and airtime usage. Meanwhile, the growth in construction is associated with increased construction of buildings and roads.

Sectoral Performance

Procurement of Traditional Export Crops

During the quarter ending September 2013, procurement of major traditional export crops declined to 143,386.1

tonnes from 193,005.8 tonnes recorded in the corresponding period in 2012 (**Table 1.2**). The decline was recorded in all crops during the quarter due to low farm gate prices offered.

Production of Gold and Diamond

Production of gold by large scale miners declined to 7,210.8 kilograms during the quarter ending September 2013 compared to 10,840.9 kilograms recorded in the corresponding period in 2012 owing to winding up of operations by Tulawaka and Resolute gold mines following expiry of mining licenses. Similarly,

value of gold produced declined to USD 375.8 million compared to USD 540.1 million realized in the quarter ending September 2012 mainly on account of decline in both volume and prices in the world market. Production of diamond also declined during the review period (**Table 1.3**).

Food Supply Situation

During the period under review, food supply situation in the country was generally satisfactory with some pockets of food shortages reported. The National Food Reserve Agency (NFRA) purchased 205,472 tonnes of maize and sorghum and sold 9,094 tonnes to Prison Department and Disaster Coordination

Unit in the Prime Minister's Office in the quarter ending September 2013. The stock of maize and sorghum held by the NFRA increased to 224,295 tonnes at the end of September 2013 from 91,021 tonnes recorded in corresponding period in 2012 (**Table 1.4**).

During the quarter ending September 2013, with exception of sorghum, wholesale prices for all selected food crops decreased when compared with

those recorded in the corresponding quarter in 2012 mainly due to higher seasonal crops harvests (**Table 1.5**).

Inflation Developments

Headline inflation eased to an average of 6.8 percent in the quarter ending September 2013 compared to 14.7 percent recorded in the corresponding

quarter in 2012. This development was mainly on account of gradual slowdown in food prices following improved food supply (**Chart 1.1 and Table 1.6**).

2.0 MONETARY AND FINANCIAL DEVELOPMENTS

Money and Credit

Extended broad money supply (M3) recorded growth rate of 13.9 percent in the year ending September 2013 compared with 9.5 percent recorded in the corresponding period in 2012. The growth was mostly driven by increase in

government borrowing from the banking system. Credit to the private sector grew by 15.1 percent in the year ending September 2013 compared with 16.1 percent recorded in the corresponding period in 2012 (**Chart 2.1 and Table 2.1**).

With exception of transport and communication, manufacturing, and hotels and restaurants, credit held in all other activities recorded a slower growth during the year ending September 2013

when compared with the corresponding period in 2012 (**Chart 2.2**). The largest share of banks' credit continued to be held in trade activities and personal loans (**Chart 2.3**).

Interest Rates Developments

During the quarter ending September 2013, overall interest offered and charged by commercial banks decreased when compared to the rates registered in the preceding quarter and corresponding quarter in 2012. Overall lending rate averaged 15.50 percent compared with 15.84 percent recorded in previous quarter and 15.77 percent recorded in the corresponding quarter in 2012. One-year lending rate averaged 13.56 percent down from 14.36 percent in the preceding quarter and 14.45 percent recorded in the quarter ending September 2012. Overall time-deposit rate decreased to

an average of 8.49 percent from 8.73 and 8.61 percent recorded in the preceding quarter and the corresponding quarter in 2012 respectively. Likewise, 12-month deposit rate decreased to an average of 11.14 percent from 11.37 percent in the preceding quarter and 11.72 percent recorded in the quarter ending September 2012. The spread between the 12-months deposit rate and one year lending rate narrowed to 2.42 percent from 3.00 percent recorded in the preceding quarter and 2.73 percent recorded in the quarter ending September 2012 (**Table 2.2**).

Financial Markets Operations

In the quarter ending September 2013, the Bank offered **Treasury bills** worth TZS 995.0 billion compared to TZS 810.0 billion offered in the preceding quarter. Demand amounted to TZS 1,027.3

billion and the Bank accepted bids worth TZS 818.2 billion. Weighted Average Yield (WAY) increased to an average of 14.61 from 13.81 percent recorded in the preceding quarter (**Chart 2.4**).

Chart 2.4: Treasury bills Market Performance

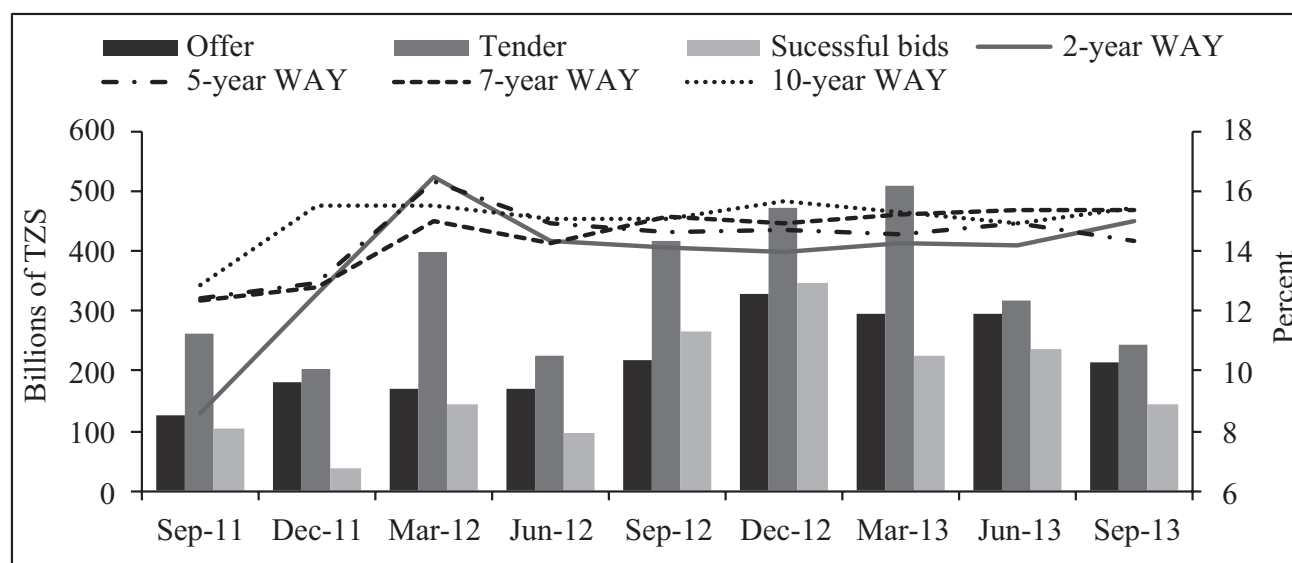

Source: Bank of Tanzania

The Bank offered **Treasury bonds** of different maturities amounting to TZS 215.4 billion, compared to TZS 295.4 billion which was offered in the quarter ending June 2013. Demand amounted to TZS 244.4 billion and the Bank accepted

bids worth TZS 146.1 billion. Save for the 5-year Treasury bond rate, all other rates increased when compared to the rates recorded in quarter ending June 2013 (**Chart 2.5**).

Chart 2.5: Treasury bonds Market Developments

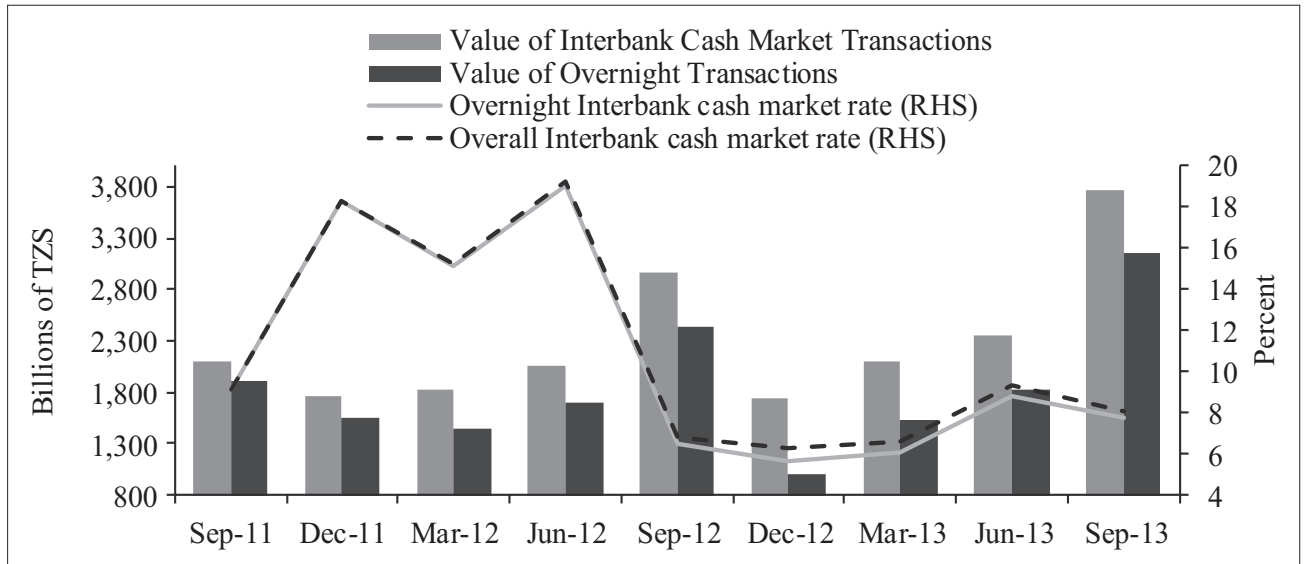

Source: Bank of Tanzania

Total transactions in the **interbank cash market** amounted to TZS 3,759.7 billion compared with TZS 2,361.3 billion transacted in the quarter ending June 2013. Overnight placements accounted for 84.2 percent of total transactions

against 77.0 percent registered in the preceding quarter. Overnight interbank rate decreased to an average of 7.76 percent from 8.86 percent recorded in the preceding quarter (**Chart 2.6**).

Chart 2.6: Inter-bank Cash Market Developments

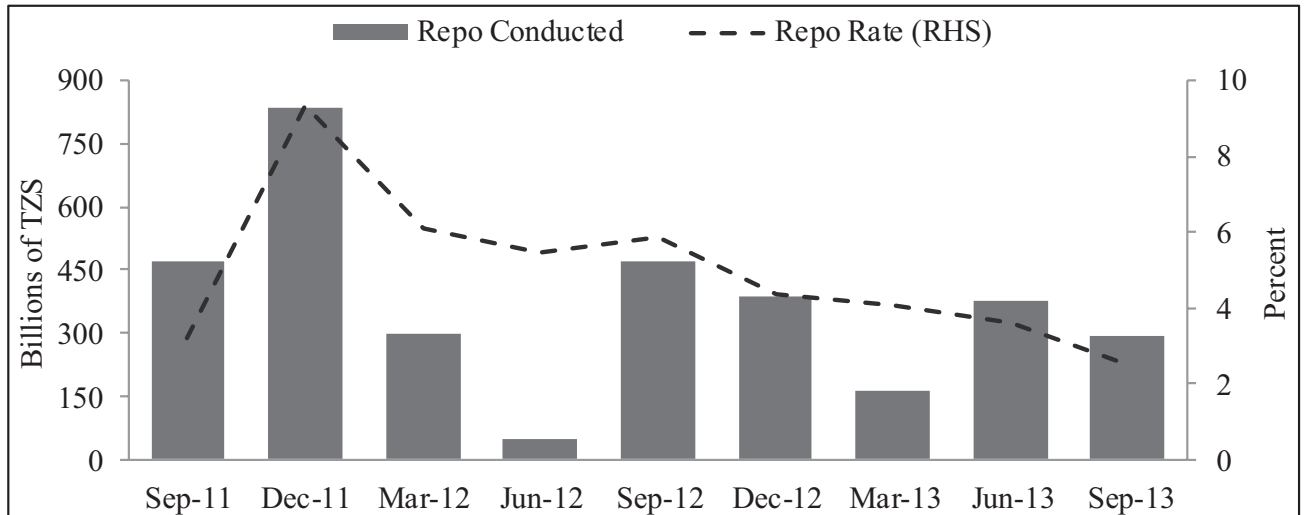

Source: Bank of Tanzania

The Bank conducted **repurchase agreements (repos)** with commercial banks amounting to TZS 295.0 billion compared with TZS 375.0 billion transacted in the quarter ending June

2013. Meanwhile, repo rate declined to an average of 2.6 percent from 3.6 percent recorded in the preceding quarter (**Chart 2.7**).

Chart 2.7: Repo Market Developments

3.0 PUBLIC FINANCE

Government Budgetary Operations

During the quarter ending September 2013, domestic revenue and grants amounted to TZS 2,925.7 billion, while total expenditure including expenditure float amounted to TZS 3,112.6 billion, resulting in a deficit after adjustment to cash of TZS 153.9 billion.

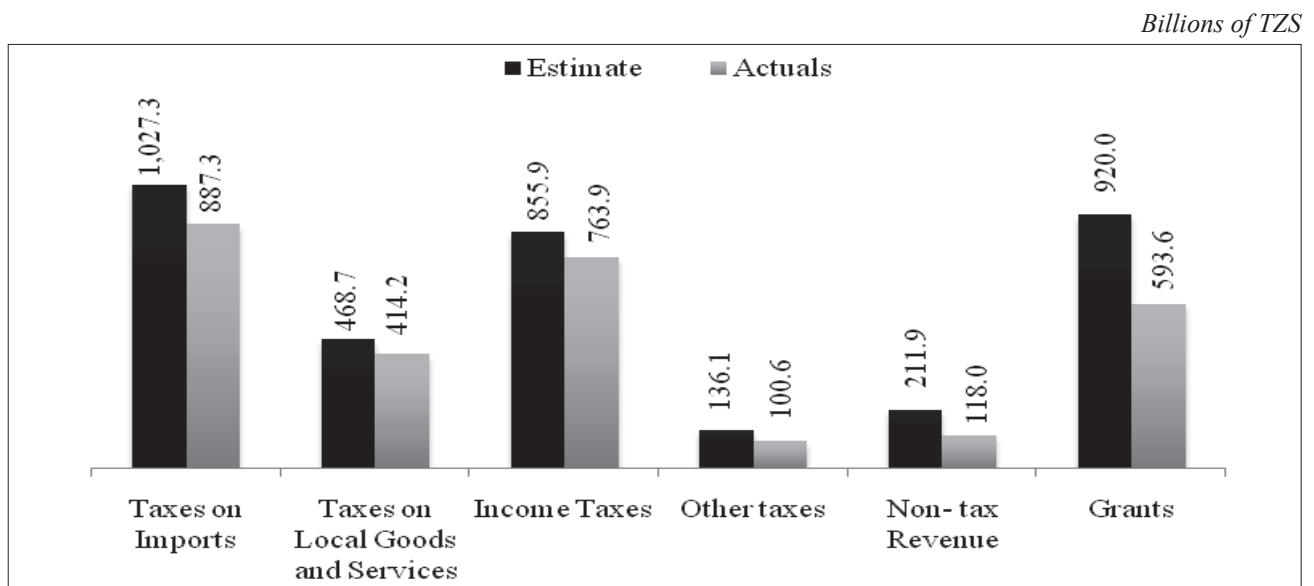

Tax revenue amounted to TZS 2,165.9 billion 87.1 percent of the target for the quarter and accounted for 92.9 percent of total revenue. The under-performance is partly explained by delays in the implementation of some revenue measures, namely Excise Duty on SIM Card and money transfer.

Revenue Performance

During the quarter under review, revenue collected by Central Government amounted to TZS 2,283.9 billion, which is 15.4 percent below the target.

Grants disbursed amounted to TZS 593.6 billion during the quarter, against the projection of TZS 920.0 billion (**Chart 3.1**).

Chart 3.1: Government Resources for the Quarter Ending September 2013

National Debt

Total **external debt stock** as at the end of September 2013 amounted to USD 12,744.3 million, an increase of USD 655.1 million and USD 2,268.2 million from the levels recorded at the end of preceding quarter and the corresponding quarter in 2012, respectively. The increase was on account of new disbursements and accumulation of interest arrears. Out of the total external debt stock, 89.6 percent was Disbursed Outstanding Debt (DOD) and 10.4 percent was interest arrears.

Central Government debt accounted for the largest share in external debt stock and has increased to USD 10,160.9 million from USD 9,369.9 million recorded at the end of the quarter ending June 2013. The increase was mainly on account of new disbursements. The amount and shares in respect of other borrower categories are presented in **Table 3.1**.

Disbursements received and recorded during the quarter under review amounted to USD 267.1 million, while external debt service amounted to USD 42.9 million, out of which USD 12.8 million was principal and USD 29.3 million was interest payments. The amount of debt service was 1.9 percent of export of goods and services against

a sustainability threshold of 25 percent.

The stock of domestic debt as at the end of September 2013 was TZS 6,146.3 , an increase of 9.0 percent over the amount recorded at the end of the preceding quarter and 32.9 percent over the amount recorded at the end of the corresponding quarter in 2012. The increase was on

account of relatively large issuance of Government bonds compared to maturing obligations and securitization of an overhang of past net domestic financing held at the Bank of Tanzania.

Out of Government debt, Government bonds accounted for 70.0 percent compared to 74.1 percent recorded at the end of previous quarter. Shares of debt by instruments is as shown in **Table 3.3**.

New domestic debt issued during the quarter ending September 2013 amounted to TZS 559.0 billion, out of which, TZS 394.6 billion was in Treasury bills, and TZS 164.4 billion was in Treasury bonds. Debt worth TZS

441.2 billion was due for payment, out of which principal amounting to TZS 332.9 billion was rolled over and interest amounting to TZS 108.3 billion was paid out of government resources.

4.0 EXTERNAL SECTOR DEVELOPMENTS

Current Account

During the quarter ending September 2013, current account deficit widened to USD 1,275.7 million from a deficit of USD 726.5 million recorded in the corresponding quarter in 2012.

This outturn was driven by a large increase in import of goods and services compared to levels recorded in the quarter ending September 2012 (**Table 4.1**).

Table 4.1: Current Account Balance

Exports

The value of exports of goods declined by 12.0 percent from the levels recorded in the quarter ending September 2012 to USD 1,337.1 million (**Table 4.2**). Much of the decline was attributed to decrease in exports of non-traditional commodities

particularly gold following fall in world market prices and volume exported. The decline in volume of gold exported was on account of winding up of operations by Tulawaka and Resolute gold mines.

Table 4.2: Exports by Type of Commodity

Imports

During the quarter ending September 2013, the value of goods imported increased by 13.5 percent to USD 3,364.9 million compared to the value recorded in the corresponding quarter in 2012. The increase was largely on account of rise in the value of oil, building and

construction equipment, consumer goods and fertilizers imports. Oil imports accounted for 37.7 percent of the total value of goods imported (Table 4.3). The value of oil imports rose mainly on account of an increase in the volume imported.

Table 4.3: Goods Imports

Services and Income Account

In the quarter under review, the services account recorded a surplus of USD 230.2 million, a 219.7 percent increase from the amount recorded in the quarter ending September 2012. This performance was on account of an increase in travel

receipts attributable to increase in the number of tourists' arrival. Income account recorded a deficit of USD 85.6 million compared to a deficit of USD 76.7 million recorded in the quarter ending September 2012 (**Table 4.4**).

World Commodity Prices

During the quarter ending September 2013, average world market prices of selected commodities declined except those of sisal, cloves and oil (**Table 4.5**). The prices of **coffee** and **tea** declined on account of increase in global supply following bumper harvest of coffee in Brazil, Colombia and Vietnam, and tea in Kenya and India. Likewise, the price of **gold** declined largely due to a change

in investor's preference in favor of more attractive equities and shares.

The price of **cloves** increased largely on account of low production in Indonesia, the world largest producer. Meanwhile, the prices of oil rose mainly due to tight global oil supply emanating from geopolitical tensions in Middle East.

Table 4.5: World Commodity Prices

5.0 THE ZANZIBAR ECONOMY

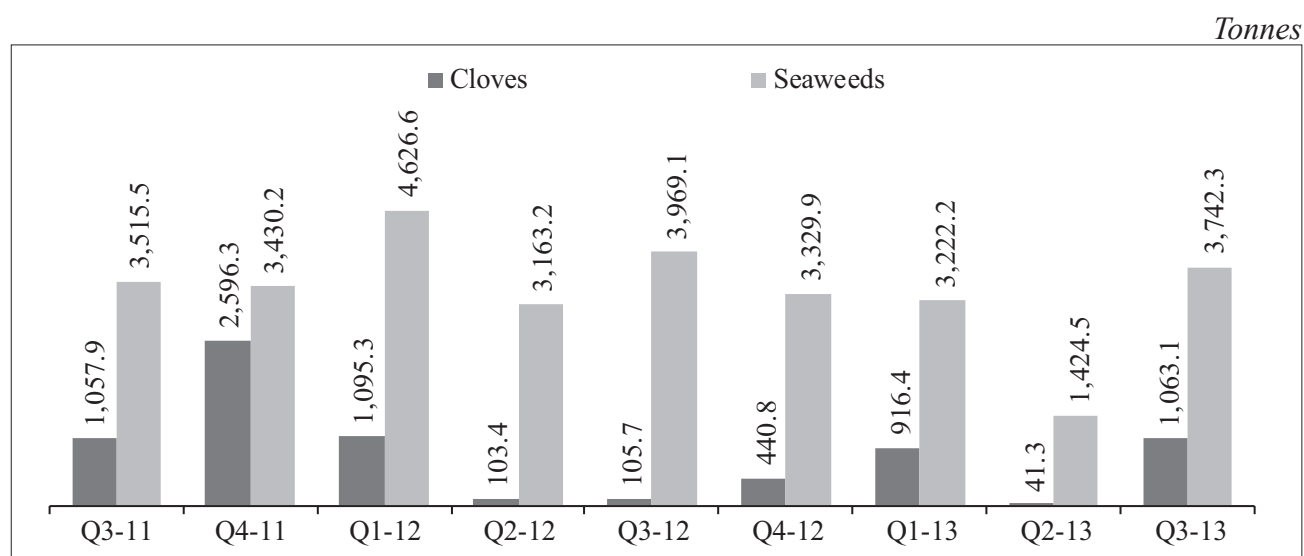

Sectoral Performance

Procurement of Major Export Crops

During the quarter ending September 2013, procurement of cloves increased significantly to 1,063.1 tonnes compared to 105.7 tonnes during the corresponding quarter in 2012, on account of cyclical

nature of the crop. Meanwhile, seaweed procurement declined by 6.1 percent to 3,742.3 tonnes compared to the corresponding quarter in 2012, due to a fall in production (**Chart 5.1**).

Chart 5.1: Zanzibar Procurement of Major Export Crops

Notes: Q = Quarter

Source: Office of Chief Government Statistician

Manufacturing Activity

During the quarter under review, production of soft drinks, mineral water, bakery products and wheat flour increased mainly on account of increased demand, while that of noodles decreased

due to competition from imported products (**Table 5.1**). Meanwhile, rubber production decreased mainly on account of aging of trees coupled with poor management of rubber plantations.

Table 5.1: Zanzibar Production of Selected Manufactured Commodities

Commodity	Unit	July - September		
		2012	2013 ^P	% Change

Inflation Developments

Average headline inflation rate during the quarter ending September 2013 decelerated to 5.9 percent from 7.7 percent recorded during the corresponding quarter in 2012. This development was largely on account of a decline in the prices

of some non-food items. Average food inflation increased to 7.6 percent from 4.7 percent, while non-food inflation rate declined to 5.0 percent from 12.3 percent recorded in the quarter ending September 2012 (**Table 5.2**).

Government Budgetary Operations

In the quarter ending September 2013, Government budgetary operations registered a deficit of TZS 12.1 billion after grants and adjustment to cash. Total resources amounted to TZS 96.4 billion, out of which TZS 73.4 billion were sourced domestically and the balance was grants. Tax revenue amounted to

TZS 68.6 billion, or 94.7 percent of the target, while non-tax revenue was above the target by 36.7 percent. Total grants disbursed during the period amounted to TZS 23.1 billion, below the estimated amount for the period by 7.8 percent. **Chart 5.1** summarizes revenue collection by source.

Chart 5.2: Zanzibar Government Revenue by Source

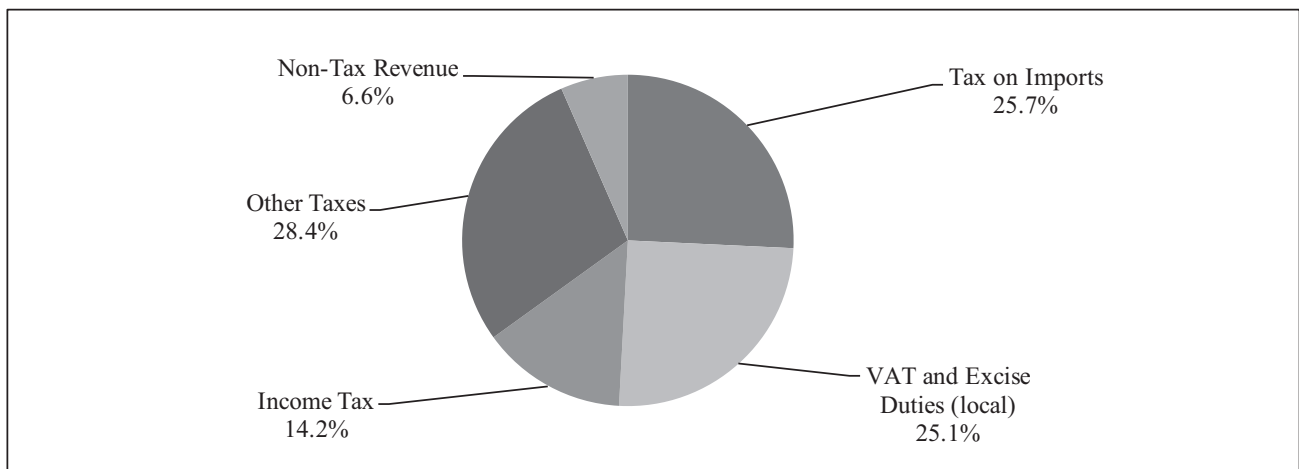

Source: President's Office Finance, Economy and Development Planning - Zanzibar

During the quarter under review, other taxes accounted for the largest share

of government revenue compared with other sources (**Chart 5.3**).

Chart 5.3: Zanzibar Government Revenue by Source - Percentage Shares for the Quarter Ending September 2013

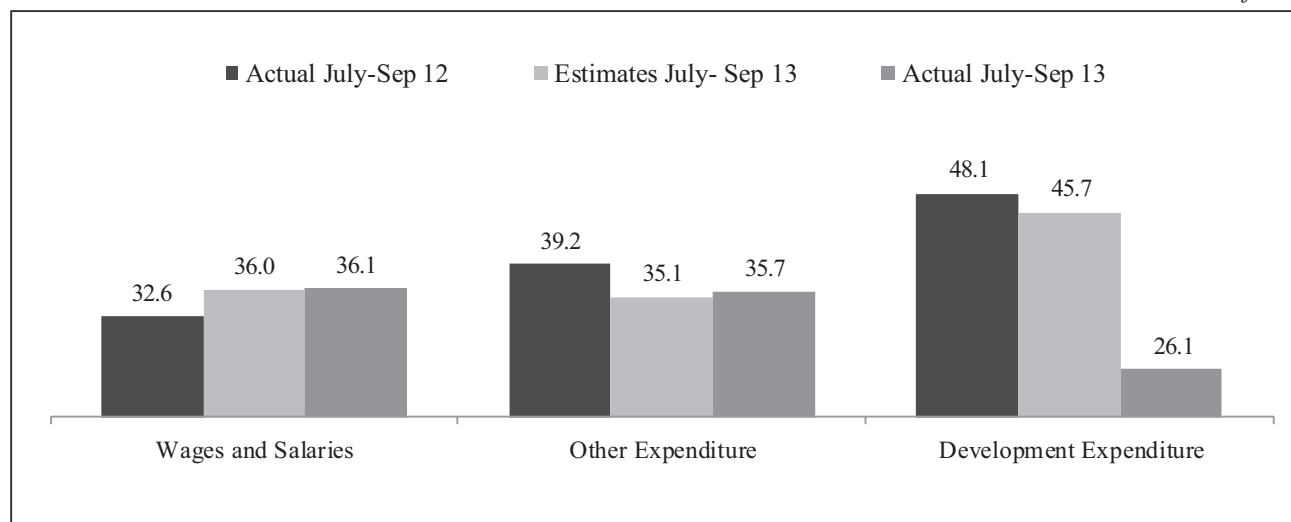

Source: President's Office Finance, Economy and Development Planning - Zanzibar.

Government expenditure amounted to TZS 97.9 billion, out of which TZS 72.8 billion was recurrent expenditure and the balance was development expenditure (**Chart 5.4**). Development expenditure was below the estimates for the quarter

by 42.9 percent, mainly due to delays in disbursement of project funds by Development Partners coupled with small contribution by Government for development projects.

Debt Developments

External debt stock amounted to USD 129.6 million as at the end of September 2013, compared with USD 128.3 million registered at the end of June 2013. External debt accounted for 74.0 percent of the total Zanzibar's debt stock. Debt guaranteed by the Union Government

accounted for 87.9 percent of the total external debt stock and the balance was non-guaranteed debt. Debt due to multilateral creditors was dominant, followed by bilateral creditors (**Chart 5.5**).

Chart 5.5: Zanzibar External Debt by Creditors as at the End of September 2013

Source: President's Office, Finance, Economy and Development Planning – Zanzibar

Debt maturing beyond 20 years dominated the profile of total external

debt, followed by debt maturing in less than 10 years (**Table 5.3**).

Table 5.3: Zanzibar External Debt by Maturity

The **stock of domestic debt** increased to TZS 73.0 billion at the end of September 2013 from TZS 58.4 billion recorded at the end of the preceding quarter. The increase was mainly due to a short-term overdraft facility issued to the Government by the

Bank of Tanzania amounting to TZS 10.0 billion, coupled with new gratuity claims government owed pensioners. **Chart 5.6** shows composition of domestic debt by creditor category.

Chart 5.6: Zanzibar Domestic Debt by Creditor as at the End of September 2013

External Sector Developments

Current Account

During the quarter ending September 2013, Zanzibar current account recorded a surplus of USD 4.8 million compared with a deficit of USD 3.3 million recorded in the corresponding quarter in

2012. This development was mainly on account of decline in the value of goods and service imported coupled with an increase in income receipts (**Table 5.7**).

Table 5.7: Zanzibar Current Account

Exports

Export of goods and services declined to USD 46.7 million from USD 64.1 million recorded during the quarter ending

September 2012, driven by a fall in the services receipts and value of traditional exports (Tables 5.7 and 5.8).

Table 5.8: Zanzibar Exports by Type of Commodity

Imports

During the quarter ending September 2013, import of goods and services decreased to USD 53.2 million from USD 90.1 million recorded in the corresponding period in 2012. Goods imports amounted to USD 41.7 million compared with

USD 58.0 million recorded in the quarter ending September 2012 and accounted for 78.5 percent of total imports. All import items recorded decreases except for transport equipment, and building and construction goods (**Table 5.9**).

6.0 ECONOMIC DEVELOPMENTS IN EAC AND SADC

During the quarter ending September 2013, headline inflation in East African Community region rose to an average rate of 7.1 percent from 5.5 percent recorded in the previous quarter (**Table 6.1**). All countries in the region except Tanzania recorded an increase in the rate of inflation largely attributed to a rise in prices of energy, and food and non-alcoholic beverage. The decline in inflation in Tanzania was largely driven by easing of food, fuel and transport costs.

Average headline inflation in the SADC region declined to 6.7 percent during the quarter under review from 7.7 percent recorded in the quarter ending June 2013 (**Table 6.1**). With the exception of Lesotho, South Africa, Swaziland and Zambia, other countries in the region recorded declines in inflation on account of easing of food and non-alcoholic beverages, electricity, water and gas prices as well as costs of transport and housing. The recorded increase in inflation in Lesotho, South Africa and Zambia was largely due to a rise in prices of food and fuel.

Notes: 1) Headline Inflation

2) Underlying Inflation

* Adjusted for seasonal movements or seasonal variations, which refer to identical, or almost identical, patterns that time series appears to follow during the corresponding months (quarters) of successive years. Such movements are due to recurring events, which take place annually, for example the increase of food prices during Ramadhan.

Exchange rate - TZS/USD (annual average)	1,196.9	1,306.0	1,395.7	1,557.4	1,571.7

Notes: 1. Revision is based on new data obtained from the completion of Private Capital Flows and Tourism Survey and adoption of new data sources for some other items in the services account
2. Change in Gross Official Reserves will not necessarily be equal to reserve assets since a new methodology of computing reserve assets which nets out the impact of valuation was introduced beginning January 2006
P = Provisional, r = Revised, o/w = Of which

8.0 GLOSSARY

Average Inflation Rate

Inflation is defined as the rate at which the average level of domestic prices is increasing over a period of time.

Currency in Circulation Outside Banks

Notes and coin accepted as legal tender in the domestic economy, excluding amounts held by the banking system.

Discount Rate also known as Bank Rate

The rate of interest the Bank of Tanzania charges on Loans it extends to Commercial Banks and government overdraft.

Exchange Rate

The price at which one currency can be purchased with another currency, e.g. TZS per US dollar.

Lombard Facility

An overnight facility introduced by the Bank on 1st December 2003 to enable commercial banks to borrow at their own discretion, by pledging eligible government securities as collateral.

Lombard Rate

The rate payable for the use of the Lombard Facility. The rate is based on the prevailing weighted average yield of Repo (7 days) or overnight inter-bank rate whichever is higher in the market , plus 20%.

Money Supply, M

The sum of currency in circulation outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely: narrow money (M1), broad money (M2), and extended broad money (M3).

M1, Narrow Money,

Consists of currency in circulation outside banks and demand deposits.

M2, Broad Money

This is equivalent to narrow money (M1) plus time (fixed) and savings deposits.

M3, Extended Broad Money

It consists of broad money (M2) plus residents' foreign currency deposits.

Transferable Deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheque, draft, giro order, direct debit/ credit or other payment facility without any kind of significant restriction or penalty.

Non-transferable Deposits

Include all claims reflecting evidence of deposit other than transferable deposits.

Typical examples are saving deposits and time deposits.

Non-Food Inflation Rate

This is a measure of price movements caused by factors other than food prices.

Repurchase Agreement (REPO)

These are agreements to purchase/sale by the BoT government securities from/ to financial institutions at agreed rate for a specified period, with an understanding that the financial institutions will repurchase/resell the securities to the BoT at the end of the period.

Reserve Money (M0)

The Bank of Tanzania's liabilities in the form of: currency in circulation outside the banking system, cash held by banks in their vault and deposits of banks kept with the Bank of Tanzania in national currency. Reserve money is also referred to as base money or high powered money.

Weighted Annualized Yields of Treasury Bills of all Maturities

This is the average yield of Treasury bills, which is weighted by the volume sold of 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
