SUMMARY OF ECONOMIC DEVELOPMENTS

Economic performance, as measured by gross domestic product (GDP), remained high. In the third quarter of 2019, real GDP grew by 6.8 percent, year-on-year, compared with 7.1 percent in the corresponding quarter in 2018. The growth was mostly driven by construction, agriculture, and transport and storage activities, altogether contributing about 45.6 percent. Economic activities that recorded high growth rates were information and communication, construction, water, and mining and quarrying. Economic growth is expected to be high in the fourth quarter of 2019, owing to good weather, sustained investment and high export growth.

Consumer price index (CPI) inflation remained low and stable. Headline inflation averaged 3.7 percent in the quarter ending December 2019 compared with 3.6 percent in the preceding quarter and 3.1 percent in and corresponding quarter in 2018. The rate was below the country medium-term target of 5.0 percent and within the East African Community (EAC) and Southern African Development Community (SADC) convergence criteria of not more than 8.0 percent and between 3.0 and 7.0 percent, respectively. Noteworthy, headline inflation in the EAC averaged 4.8 percent, while in SADC it was 5.1 percent.

Money supply continued to record strong growth, consistent with the sustained accommodative monetary policy and measures implemented to improve the business environment. Extended broad money supply (M3) recorded annual growth of 9.6 percent in December 2019 compared with 9.4 percent and 4.5 percent in September 2019 and December 2018, respectively. The growth was supported by strong growth of credit to the private sector and expansion of liquidity through purchases of foreign exchange. Credit to the private sector recorded annual growth of 11.1 percent in December 2019, higher than 9.3 percent in September 2019 and 4.9 percent in December 2018. The spread between one-year deposit rate and one-year lending rate narrowed to 7.59 percentage points in the quarter ending December 2019 from 10.12 percentage points in the similar

quarter of 2018, owing to increase in one-year deposit rate coupled with a decrease in one-year lending rate.

The shilling remained stable against the US dollar throughout the quarter, trading at an average of TZS 2,300.67 per US dollar compared with TZS 2,300.56 per US dollar in the preceding quarter. On annual basis, the shilling depreciated by 0.4 percent.

The Government continued to streamline fiscal operations to facilitate sustainable economic growth, by enhancing revenue collection efforts and rationalizing expenditure pattern based on available resources and priorities. During the quarter ending December 2019, Government resources, which comprise of domestic revenue and foreign grants, amounted to TZS 5,789.5 billion, while expenditure was TZS 6,443.3 billion.

External debt stock was USD 22,381.8 million at the end of December 2019 compared with USD 22,380.6 million and USD 21,060.5 million registered at the end of the preceding quarter and corresponding quarter of 2018, respectively. The increase was largely owing to new disbursements. The external debt remained sustainable as proved by the ratio of external debt service to exports of 19.7 percent in 2019 against the threshold of 23.0 percent. Conversely, domestic debt stock decreased to 14,435.2 billion from TZS 14,631.4 billion at the end of December 2018.

The overall balance of payments improved to a surplus of USD 146.8 million during the quarter ending December 2019 from a deficit of USD 380.3 million in the corresponding quarter of 2018. This was largely driven by narrowing of current account deficit to USD 49.9 million from a deficit of USD 586.4 million following an increase in exports, which outweigh the impact of increase in imports. Gross official foreign reserves increased to USD 5,567.6 million at the end of December 2019 from USD 5,044.6 million at the end of December 2018. The reserves were sufficient to cover 6.4 months of projected import of goods and services.

During the third quarter of 2019, Zanzibar economy grew by 8.6 percent, year-on-year, compared with 10.6 percent in the similar quarter of 2018. Procurement of cloves increased significantly to 3,153.3 tonnes during the quarter ending December 2019 from 54.7 tonnes in the corresponding quarter of 2018 owing to cyclical nature of the crop. Annual headline inflation eased to an average of 2.9 percent from 3.9 percent in the quarter to December 2018.

The Government of Zanzibar sustained measures to increase revenue collections and ensure discipline in the use of public funds, while rationalizing expenditure based on available resources, budget estimates, and priorities. Government resource envelope amounted to TZS 240.4 billion in the quarter under review, while

expenditure was TZS 264.5 billion. Debt stock, comprising domestic and external debt, increased to TZS 822.5 billion at the end of December 2019 from TZS 779.0 billion registered at the end of the similar quarter in 2018 on account of new disbursements for development projects.

The current account balance was a deficit of USD 22.7 million during the quarter ending December 2019 compared with a deficit of USD 17.5 million in the quarter ending December 2018 following increase in import bill.

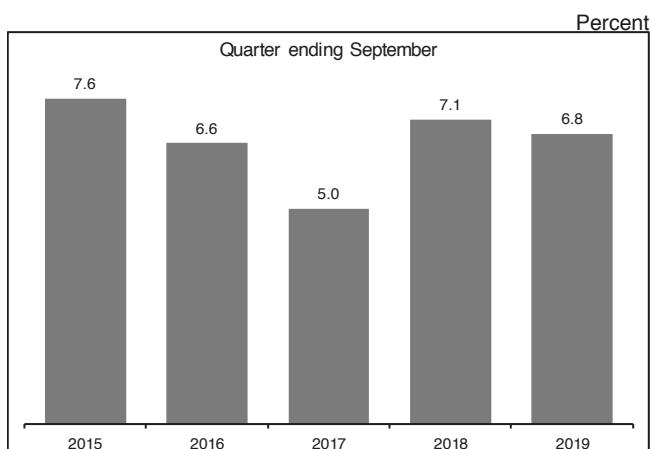

1.0 OUTPUT AND PRICES

Gross Domestic Product¹

The economy continued to perform satisfactorily and consistent with projections. Real gross domestic product (GDP) grew by 6.8 percent in the third quarter of 2019, year-on-year, compared with 7.1 percent in the corresponding quarter of 2018 (**Chart 1.1**). Information and communication activity recorded the highest growth rate of 11.7 percent, followed by construction, water, and mining and quarrying, which grew by 11.2 percent, 10.9 percent and 10.6 percent, respectively. The sustained high growth in construction activity was associated with the on-going investments in infrastructure, including construction of standard gauge railway, Julius Nyerere hydropower station, roads, bridges, water supply facilities and buildings. Growth in information and communication was on account of an increase in airtime usage by mobile phone customers and expansion of mobile and internet services. Growth in mining and quarrying activity was due to higher production of gold, silver and natural gas. The observed increase in the volume of gold produced is also supported by improvements in data capturing following establishment of mineral trading centers.

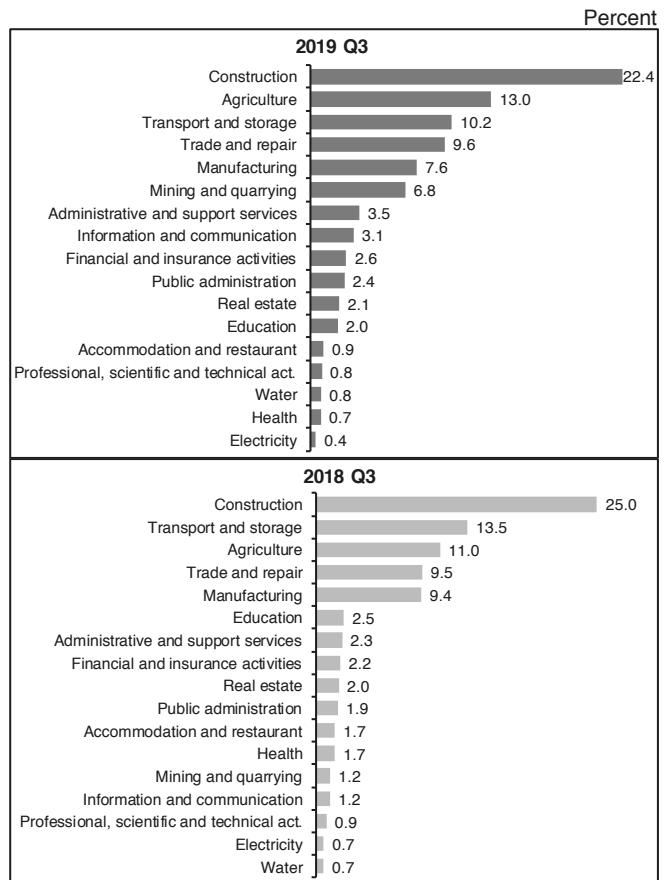

Economic activities that contributed significantly to the real GDP growth during the third quarter of 2019 were construction (22.4 percent), agriculture (13.0 percent), and transport and storage (10.2 percent) (**Chart 1.2**).

Note: Q denotes quarter

Inflation

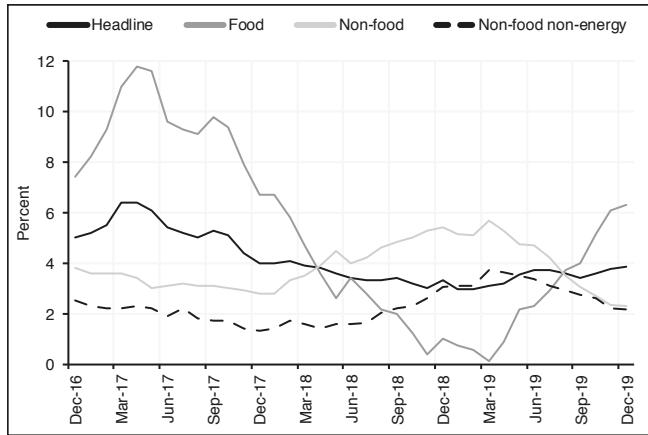

Headline inflation remained low and below the country medium term target of 5.0 percent, and within the East African Community (EAC) convergence criteria of not more than 8.0 percent and Southern African Development Community (SADC) of between 3-7.0 percent. Annual headline inflation averaged 3.7 percent in the quarter ending December 2019 compared with 3.6 percent and 3.1 percent in the preceding quarter and corresponding quarter of 2018, respectively (**Table 1.1**). Annual food and non-alcoholic beverages inflation increased to an average of 5.8 percent from 0.9 percent recorded in the quarter ending December 2018, largely driven by prices of maize, rice, beans and sorghum. Non-food inflation eased to an average of 2.4 percent from 5.2 percent, following decline in prices of petroleum products.

Food Supply Situation

Food Stocks

Food supply remained adequate in most parts of the country, though there were reports of food shortages in few areas. The stock of food held by National Food Reserve Agency (NFRA) was 52,498 tonnes at the end of December 2019. During the quarter under review, the NFRA sold 10,272.4 tonnes of maize to private traders, World Food Program and Prisons Department and purchased 1,059.6 tonnes from food surplus areas in the country to replenish its stocks (**Table 1.2**).

Chart 1.2: National Food Reserves Held by NFRA

Wholesale Prices of Food Crops

Wholesale prices of major food crops remained relatively high during the quarter ending December 2019 compared with the corresponding quarter of 2018 (**Table 1.3**). This was attributed to high demand for food from neighboring countries and to some extent domestic demand owing to production shortfalls experienced in northern and lake zones during the 2018/19 crop-season.

Table 1.3: Average Wholesale Prices of Major Food Crops

Crop	Quarter ending			Percentage change	
	Dec-18	Sep-19	Dec-19	Sep-19 to Dec-18 to Dec-19	
				Dec-18	Sep-19

Domestic Pump Prices

During the quarter ending December 2019, domestic prices of petrol, diesel and kerosene were lower compared with prices recorded in the corresponding quarter in 2018, owing to price slowdown in the world market (**Table 1.4**). **Chart 1.4** presents monthly domestic pump prices in the past three years.

Table 1.4: Average Domestic Fuel Prices

Production and Procurement of Major Commodities

Production of Gold and Diamond

Gold and diamond worth USD 441.2 million was produced by large-scale miners in the quarter ending December 2019, a 7.8 percent higher than the amount recorded in the similar quarter in 2018. The value of gold produced during the quarter increased by 11.8 percent, y-o-y, to USD 432.2 million due to higher price in the world market. Conversely, value of diamond produced declined to USD 9.0 million from USD 22.8 million in the corresponding quarter of 2018 on account of both, volume and price in the world market (**Table 1.5**).

Table 1.5: Production of Gold and Diamond

Mineral	Quarter ending			Percentage change	
	Dec-18	Sep-19	Dec-19	Sep-19 to Dec-18	Dec-19
Gold	Kilograms	12,526.7	9,948.5	12,287.9	23.5 -1.9
	Value (USD Million)	386.5	370.5	432.2	16.7 11.8

Total value	USD Million	409.3	388.9	441.2	13.5 7.8

Source: Respective mining companies

Procurement of Traditional Export Crops

Procurement of all major traditional export crops declined during the quarter ending December 2019 from the volume procured in the corresponding quarter of 2018, save for sisal (**Table 1.6**). The volume of sisal procured during the quarter was higher than in the similar quarter in 2018, attributed to firming up of both domestic and export demand. Procurement of tea declined owing to destruction of tea fields by hailstone and frost during the review period, while that of coffee fell due to long and dry spell experienced in the northern zone coffee growing regions coupled with low coffee production cycle.

Table 1.6: Procurement of Traditional Export Crops

Crop	Quarter ending				Percentage change
	Dec-16	Dec-17	Dec-18	Dec-19

2.0 MONETARY AND FINANCIAL MARKETS DEVELOPMENTS

Money Supply and Credit

Money supply recorded moderate growth, within the targeted growth path and consistent with accommodative monetary policy and improved credit conditions. Extended broad money supply (M3) grew at an annual rate of 9.6 percent in December 2019 compared with 4.5 percent in December 2018 and 9.4 percent in September 2019 (**Chart 2.1, Table 2.1** and **Chart 2.2**). This was driven by expansion in net foreign assets of the banking system and continued strong growth of credit to the private sector. Broad money supply (M2)—that excludes foreign currency deposits—grew by 11.8 percent compared with 3.8 percent registered in the year ending December 2018 and 9.8 percent in the year ending September 2019.

Source: Bank of Tanzania and banks

Note: “---” denotes a change that exceeds 100 percent

Chart 2.2: Annual Change of Major Components of Money Supply

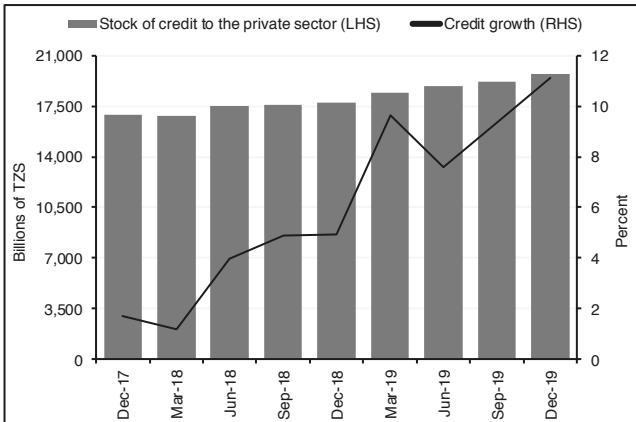

Source: Bank of Tanzania, banks and Bank of Tanzania computations

Net foreign assets of the banking system grew at an annual rate of 13.2 percent in December 2019 compared with 3.9 percent in the preceding quarter and a contraction of 8.3 percent in December 2018. The increase was mainly on account of Bank of Tanzania purchase of foreign exchange from the market, owing to increase in export proceeds, mainly from gold, manufactured goods, tourism and cash crops.

Total domestic credit by the banking system maintained an annual growth of 6.2 percent as in September 2019, but was lower than 10.1 percent recorded in December 2018. The slow growth was attributed to the decline in credit extended to the Government following build-up of government deposits at the Bank of Tanzania owing to increase in revenue collection and streamlined expenditure.

Credit to the private sector grew by 11.1 percent in the year ending December 2019, up from 4.9 percent and 9.3 percent in the year ending December 2018 and September 2019, respectively (**Chart 2.3**). This development was at the back of sustained accommodative monetary policy coupled with ongoing measures implemented by the Government to improve business environment.

Chart 2.3: Credit to Private Sector by Banks

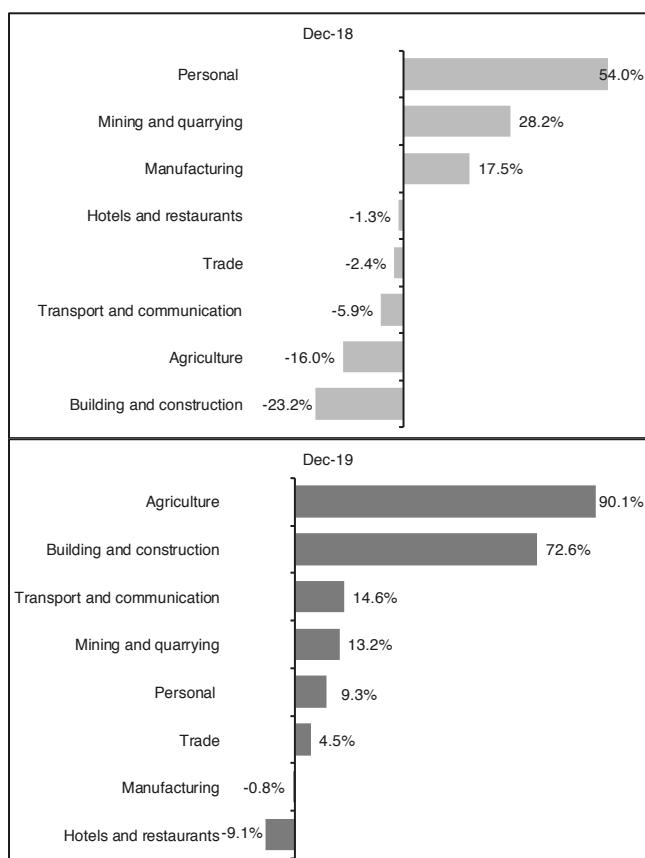

Source: Banks and Bank of Tanzania computations

Note: LHS denotes left hand scale; and RHS, right hand scale

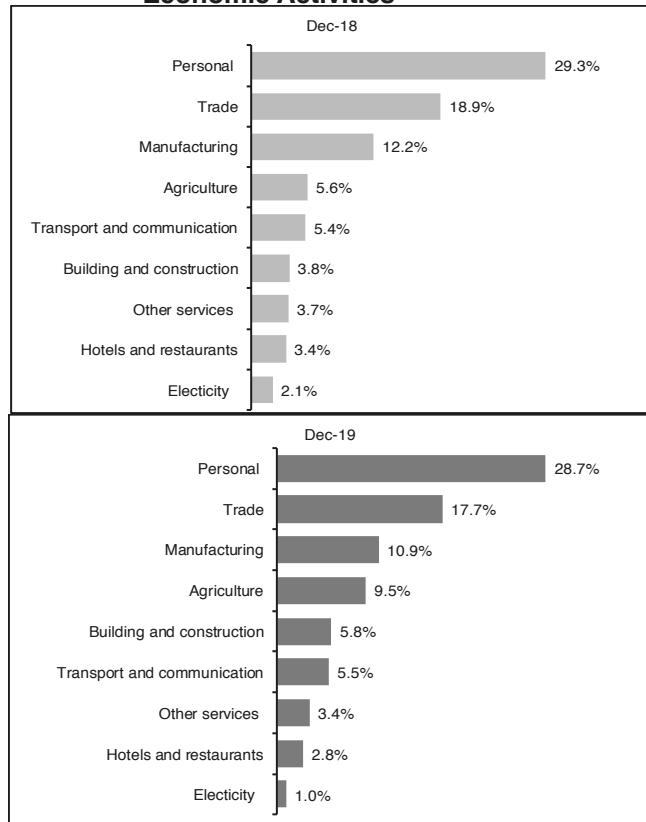

Strong growth of credit was more pronounced in agriculture, building and construction, transport and communication, and mining and quarrying activities (**Chart 2.4**). Simultaneously, personal-related activities and trade continued to account for the largest share of the outstanding credit at 28.7 and 17.7 percent, respectively (**Chart 2.5**).

Chart 2.4: Annual Growth of Banks' Credit to Selected Economic Activities

Source: Banks and Bank of Tanzania computations

Chart 2.5: Shares of Banks' Credit to Selected Economic Activities

Source: Banks and Bank of Tanzania computations

Interest Rates

Interest rates offered on deposits and those charged on loans by banks exhibited mixed trend across maturity spectrum but with a general softening as reflected by movements in overall time deposits and overall lending rates. This reflects adequacy of liquidity in the banking system in line with accommodative monetary policy pursued by the Bank. The overall time deposit rate decreased to an average of 7.02 percent in the quarter ending December 2019 from 7.77 percent in the corresponding quarter of 2018, while one-year deposit rate increased to an average of 9.04 percent from 8.18 percent.

Overall lending rates eased to an average of 16.82 percent in the quarter under review, from 17.06 percent in the quarter ending December 2018. Similarly, one-year lending rate declined to an average of 16.63 percent from 18.30 percent in the quarter ending December 2018. As a result, the spread between one-year deposits rate and one-year lending rate narrowed to 7.59 percentage points in the quarter to December 2019 from 10.12 percentage points in the corresponding quarter of 2018 (**Table 2.2**).

Financial Markets

During the quarter ending December 2019, the Bank of Tanzania offered Treasury bills worth TZS 753.9 billion mainly for government financing needs. Total bids received amounted to TZS 1,172.02 billion, of which bids worth TZS 611.1 billion were successful. Consistent with strong demand and adequate liquidity in the banking system, overall weighted average yield decreased to an average of 6.06 percent from 7.62 percent recorded the preceding quarter (Chart 2.6).

The Bank also offered 5-, 7-, 10-, 15- and 20-year Treasury bonds worth TZS 610.4 billion for government fiscal operations. In general, the auctions were over-subscribed, receiving bids amounting to TZS 1,062.16 billion, of which bids worth TZS 646.5 billion were successful.

The interbank cash market (IBCM) remained active, recording total transactions worth TZS 3,426.4 billion in the quarter ending December 2019 compared with TZS 3,501.27 billion traded in the

preceding quarter. The share of overnight placements decreased to 23.8 percent during the quarter from 36.0 percent in the preceding quarter. Overnight and overall interbank cash market interest rate decreased to an average of 4.20 percent and 5.00 percent from 4.94 percent and 5.23 percent in the quarter ending September 2019, respectively (Chart 2.7).

Chart 2.7: Inter-bank Cash Market Transactions

Note: LHS denotes left hand scale; and RHS, right hand scale

The Bank of Tanzania conducted reverse repurchase agreement (reverse repo) with banks to bridge short term liquidity squeeze in line with the current monetary policy stance. During the quarter ending December 2019, auctions of reverse repo amounted to TZS 1,135.9 billion compared with TZS 1,166.9 billion in the preceding quarter. Reverse repo worth TZS 1,199.2 billion matured during the quarter compared with TZS 1,357.6 billion in the quarter ending September 2019. Reverse repo rate averaged 5.79 percent, slightly higher than 5.57 percent in the quarter ending September 2019 (Chart 2.8).

Chart 2.8: Reverse Repos Transactions

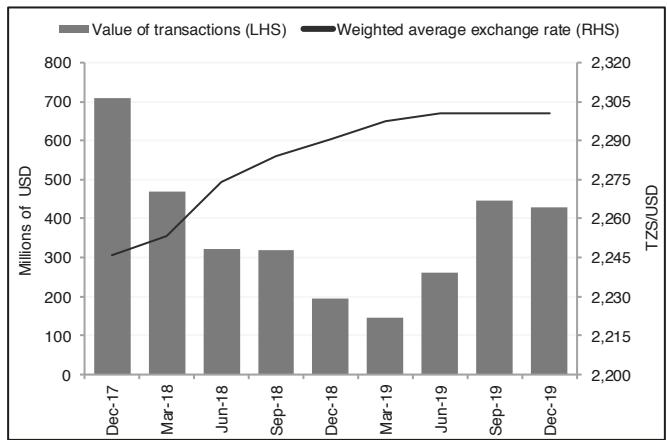

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand scale

Transactions in the interbank foreign exchange market (IFEM) amounted to USD 428.9 million in the quarter ending December 2019 compared with USD 446.40 million in the preceding quarter (**Chart 2.9**). The Bank participated the IFEM for reserves and liquidity management purposes, purchasing USD 185.5 million compared with USD 196.8 million in the quarter to September 2019. The shilling remained generally stable against the US dollar, trading at an average of TZS 2,300.67 per US dollar from TZS 2,300.56 per US dollar in the preceding quarter. On annual basis, the shilling depreciated by 0.4 percent from TZS 2,290.60 per US dollar in the quarter ending December 2018.

3.0 PUBLIC FINANCE

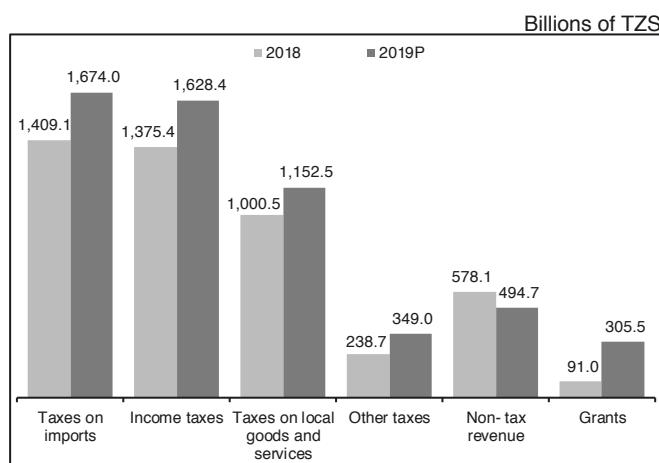

Government Budgetary Operations

The resource envelope, revenue and grants, amounted to TZS 5,789.5 billion in the quarter ending December 2019, while expenditure was TZS 6,443.3 billion. The deficit resulting from budgetary operations was financed by borrowing from both domestic and foreign sources.

Revenue and Grants

Central Government revenue collections amounted to TZS 5,298.6 billion, of which TZS 4,803.9 billion was tax revenue and TZS 494.7 billion was non-tax revenue. Tax revenue was 19.4 percent higher than the collections in the corresponding quarter of 2018 and 97.4 percent of the target for the quarter. Similarly, local government collections from own sources increased to TZS 185.3 billion from TZS 176.6 billion in the quarter ending December 2018. **Chart 3.1** shows Central Government resources during quarters ending December 2018 and 2019.

Chart 3.1: Government Resources for the Quarters Ending December

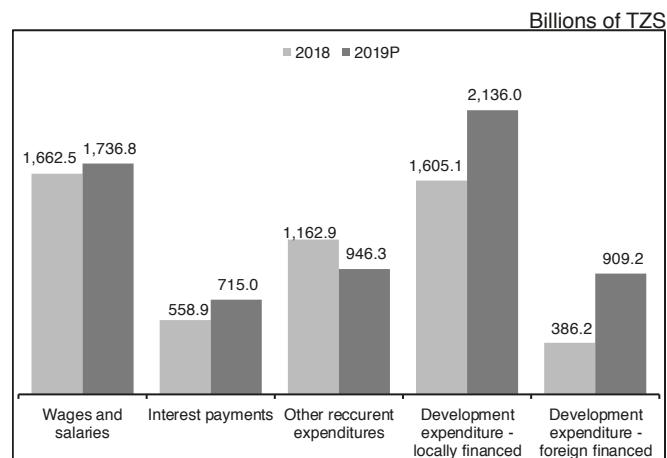

Source: Ministry of Finance and Planning

Note: p denotes provisional data

Expenditure

On expenditure side, the Government spent a total of TZS 6,443.3 billion during the quarter under review, of which TZS 3,398.1 billion was recurrent expenditure and TZS 3,045.2 billion was development expenditure (**Chart 3.2**).

Chart 3.2: Government Expenditure for the Quarters Ending December

Note: p denotes provisional data

National Debt

External debt stock amounted to USD 22,381.8 million at the end of December 2019, an increase of USD 1.2 million and USD 1,321.3 million from the end of the preceding quarter and corresponding quarter of 2018, respectively. The increase was largely because of new disbursements, which outweighed debt service. Disbursed outstanding debt accounted for 91.4 percent of the debt stock and the balance was interest arrears.

Central government external debt increased by USD 274.9 million and USD 1,565.8 million to USD 17,560.3 million from the end of the preceding quarter and corresponding quarter of 2018 position, respectively **Table 3.1** shows composition of external debt by borrower category.

Source: Ministry of Finance and Planning, and Bank of Tanzania

Note: DOD denotes disbursed outstanding debt; r, revised data; and p, provisional data

In terms of debt flow, external debt disbursed during the quarter amounted to USD 526.6 million, of which USD 347.4 million was received by the Central Government. Total amount disbursed during 2019 was USD 2,519.9 million, of which 86.3 percent went to the central government and the balance to the private sector. During the quarter ending December 2019, debt service amounted to USD 840.5 million, being principal repayment of USD 744.3 million and interest payment of USD 96.2 million. Cumulative debt service in 2019 amounted to USD 1,912.3 million (equivalent to 19.7 percent of export of goods and services), out of which USD 1,592.8 million was principal repayment.

Domestic debt stock amounted to TZS 14,435.2 billion at the end of December 2019, higher than the stock registered at the end of the preceding quarter by TZS 374.4 billion. The increase was on account of new issuance that outweighed debt repayment. Long-term instruments (Treasury bonds and stocks) remained dominant, in-line with Government Medium Term Debt Management Strategy that entails broadening maturity profile of the debt. Table 3.3 presents composition of domestic debt stock by instrument.

Table 3.3: Government Domestic Debt by Instrument

Source: Bank of Tanzania

Government securities, Treasury bills and bonds, issued for government budgetary operations amounted to TZS 1,303.4 billion, of which TZS 642.8 was Treasury bills and TZS 660.6 billion was Treasury bonds. Domestic debt raised in 2019 was TZS 5,181.6 billion, of which TZS 2,918.4 billion was Treasury bills and the balance was Treasury bonds.

Domestic debt that fell due for payment during the quarter under review, excluding liquidity papers and overdraft payments, amounted to TZS 1,305.2 billion, of which TZS 929.1 billion was principal amount that was rolled over and TZS 376.1 billion was interest paid out. Cumulative debt service during 2019 amounted to TZS 4,826.1 billion, of which TZS 3,521.0 billion was principal repayment and the balance was interest payment.

4.0 EXTERNAL SECTOR PERFORMANCE

The overall balance of payments improved significantly to a surplus of USD 146.8 million during the quarter ending December 2019, from a deficit of USD 380.3 million in the corresponding quarter of 2018, driven by narrowing of the current account deficit. Current account registered a deficit balance of USD 49.9 million compared with a deficit balance of USD 586.4 million in the quarter ending December 2018. The improvement in current account balance was largely due to increase in value of exports that outweigh the increase in import bill (**Table 4.1**).

Table 4.1: Current Account

Source: Tanzania Revenue Authority, Bank of Tanzania, banks, and Bank of Tanzania computations

Note: * includes adjustments for informal cross boarder exports; p denotes provisional data; ‘---’, denotes change that exceed 100 percent; p, provisional data; and o/w, of which

Gross official foreign reserves remained high, amounting to USD 5,567.6 million at the end of December 2019 from USD 5,044.6 million in the corresponding period in 2018. The reserves were sufficient to cover 6.4 months of projected imports of goods and services. The import cover was within the country, EAC and SADC benchmarks of at least 4.0 months, 4.5 months, and 6 months, respectively.

Goods Account

Goods account registered a deficit balance of USD

610.2 million in the quarter ending December 2019 compared with a deficit balance of USD 1,062.7 million a year earlier, owing to an increase in the value of exports. The value of goods export rose by 48.2 percent to USD 1,711.1 million, driven by both traditional and non-traditional goods exports. The traditional goods, which accounted for 26.4 percent of goods exports, more than doubled from the amount recorded during the quarter ending December 2018 to USD 450.9 million, driven by cashew nuts exports. Non-traditional goods worth USD 1,104.7 million were exported, marking a growth of 28.5 percent over the two quarters. Much of the increase manifested in gold exports on account of both volume and price effects.

Goods import bill also increased to USD 2,321.3 million during the quarter ending December 2019 from USD 2,217.1 million in the corresponding quarter of 2018. This was driven by petroleum products, and building and construction equipment associated with the on-going infrastructure projects (**Table 4.2**).

Table 4.2: Goods Imports

Item	Millions of USD			
	Quarter ending		Percentage change

Notes: * includes pharmaceutical products, paper products, plastic items, optical/photographic materials, and textile apparels; and p denotes provisional data

Services and Income Accounts

Services account recorded a surplus of USD 569.6 million in the quarter ending December 2019, compared with a surplus of USD 603.7 million in the corresponding quarter of 2018, owing to a decrease in service receipts.

Primary income account, which comprises income from capital related transactions and compensation of employees, registered a deficit of USD 175.2 million, narrower than the deficit recorded in the quarter ending December 2018 by 18.6 percent. The improvement in primary income account was mainly due to increase in receipts coupled with a decrease in payment (**Table 4.1**).

World Commodity Prices

Average world market prices of all selected commodities were lower during the quarter ending December 2019 than prices in the corresponding quarter of 2018, save for gold, Arabica coffee, maize and sisal (**Table 4.3**). The increase in the price of gold was much associated with geopolitical instability and fears of slowing global economy, which drove investors towards alternative investments including gold. Meanwhile, prices of Arabica coffee and maize increased owing to low global supply.

Table 4.3: World Commodity Prices

Commodity	Unit	Quarter ending (Three-month average)			Percentage change

5.0 ECONOMIC DEVELOPMENTS IN ZANZIBAR

Gross Domestic Product

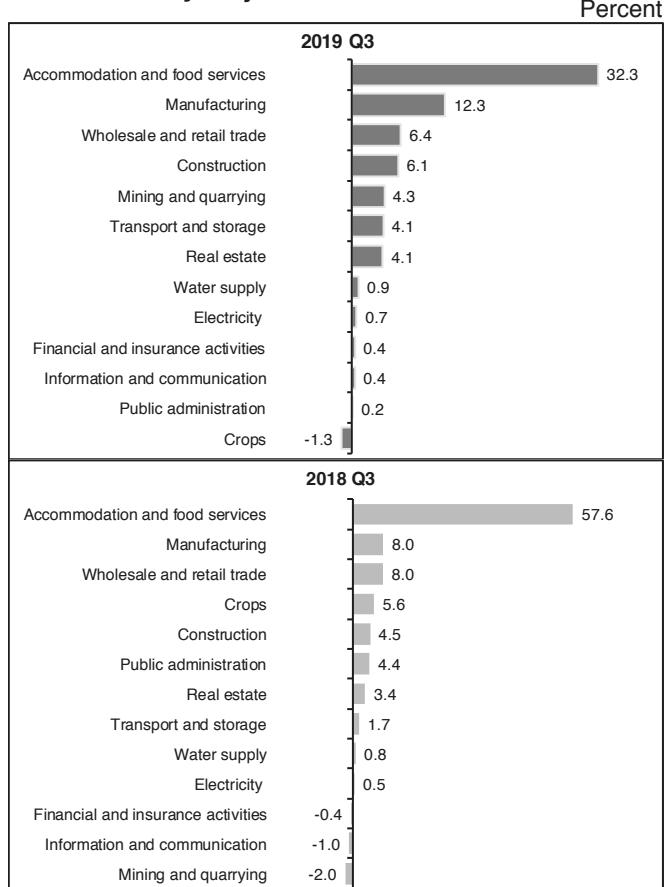

The Zanzibar economy continued to grow strongly. Real gross domestic product (GDP) grew by 8.6 percent in the third quarter of 2019, year-on-year, compared with 10.6 percent in the similar quarter of 2018 (**Chart 5.1**). Main contributors to the growth were accommodation and food services, manufacturing, wholesale and retail trade, and construction activities (**Chart 5.2a**). Activities that registered higher growth include mining and quarrying, accommodation and food services, and manufacturing (**Table 5.2b**).

Chart 5.1: Year-on-Year Real GDP Growth Rates

Note: Q denotes quarter

Chart 5.2b: Year-on-Year Growth by Major Economic Activities

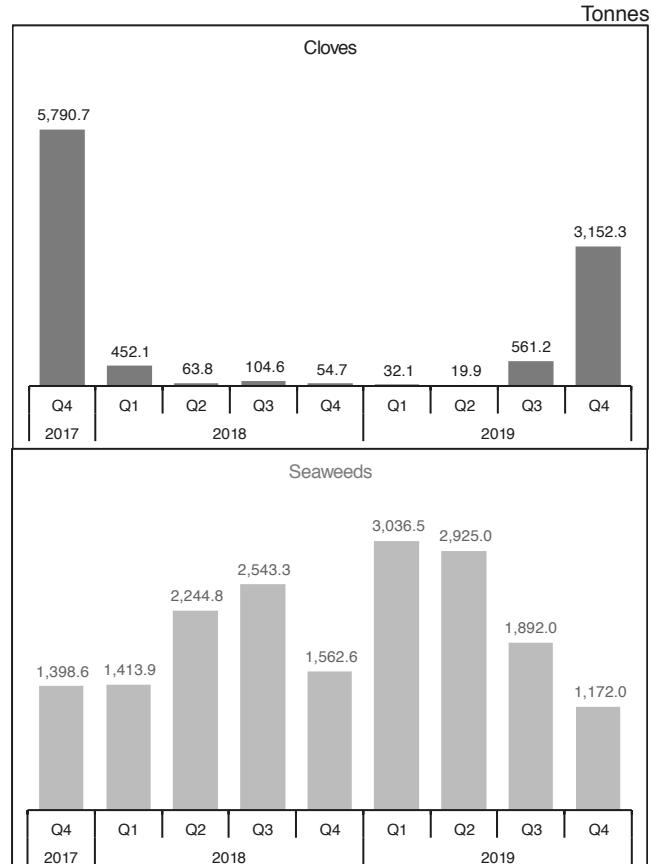

Source: Office of Chief Government Statistician, Zanzibar and Bank of Tanzania computations

Note: Q denotes quarter

Procurement of Cloves and Seaweeds

Procurement of cloves increased to 3,153.3 tonnes during the quarter ending December 2019 from 54.7 tonnes procured in the corresponding quarter of 2018. The outturn is explained by the cyclical nature of the crop, which is characterized by bumper harvest followed by a few successive seasons of low harvest. Procurement of seaweeds declined to 1,172.0 tonnes from 1,562.6 tonnes, due to unfavorable weather (**Chart 5.3**).

Chart 5.3: Procurement of Cloves and Seaweeds

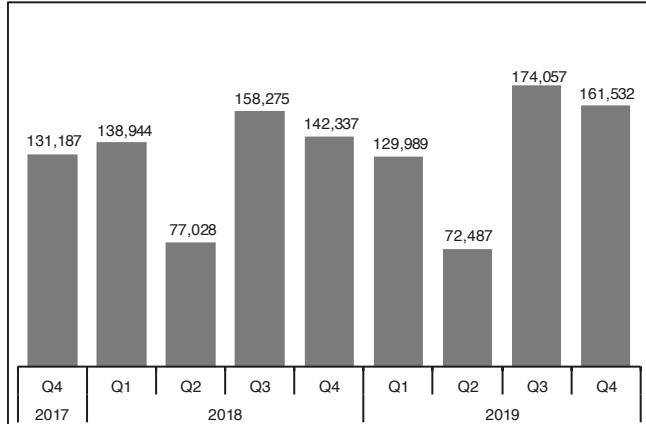

Source: Office of Chief Government Statistician, Zanzibar

Notes: Q denotes quarter

Tourism

During the quarter ending December 2019, Zanzibar received 161,532 tourists, an increase of 13.5 percent over the corresponding quarter in 2018. Tourists from Europe remained dominant, accounting for 66.4 percent of the tourist arrivals, followed by Africa, especially South Africa and Kenya at 13.0 percent. Tourists from North America, particularly USA and Canada, accounted for 11.2 percent. The remaining 9.2 percent comprised tourists from other places, including Asia and Oceania (Australia and New Zealand). The profile of tourist arrivals by country of origin shows that Italy ranked first, followed by USA and South Africa. The number of tourists from Africa and Europe grew by 32.0 percent and 21.0 percent, year-on-year, to 21,011 and 107,256, respectively (**Chart 5.4**).

Chart 5.4: Number of Tourist Arrivals

Source: Office of Chief Government Statistician, Zanzibar

Notes: Q denotes quarter

Inflation

Inflation remained subdued though increased slightly during the quarter. Annual headline inflation averaged 2.9 percent in the quarter ending December 2019 compared with 2.2 percent in the preceding quarter. The inflation rate, however, was lower than 3.9 percent recorded in the similar quarter of 2018, on account of lower prices of non-food consumer goods, in particular petroleum products (kerosene, diesel and petrol) (**Table 5.1**).

Table 5.1: Quarterly Average Inflation

Public Finance

Government Budgetary Operations

The resource envelope, comprising domestic revenue and grants, recorded annual growth of 32.7

percent to TZS 240.4 billion in the quarter ending December 2019. Domestic revenue was TZS 234.3 billion, while grants amounted to TZS 6.1 billion (**Chart 5.5**). Tax revenue, which accounted for 80.4 percent of domestic revenue, increased by 39.4 percent, year-on-year, to TZS 188.5 billion. Grants were above the projected amount for the quarter by 46.1 percent.

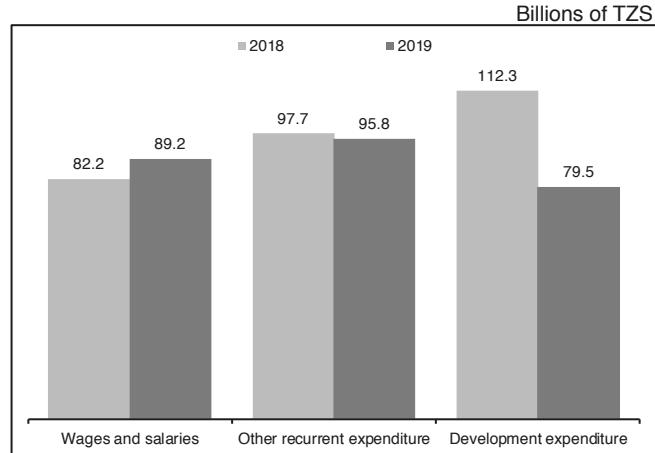

Chart 5.5: Government Revenue by Source, Quarter ending December

Source: Ministry of Finance and Planning, Zanzibar

Expenditure amounted to TZS 264.5 billion, of which TZS 185.0 billion was recurrent expenditure and TZS 79.5 billion was development expenditure (**Chart 5.6**). Out of resources used for development projects, about 56.8 percent was from domestic sources.

Chart 5.6: Government Expenditure Quarter ending December

Source: Ministry of Finance and Planning, Zanzibar

Zanzibar Debt

The debt stock, domestic and external, stood at TZS 822.5 billion at the end of December 2019 from TZS 779.0 billion in the corresponding period in 2018.

The increase was on account of new disbursements. External debt remained dominant, amounting to TZS 668.7 billion, equivalent to USD 292.3 million.

The debt profile in terms of creditor continued to be dominated by multilateral institutions at 65.4 percent of the external debt, followed by bilateral creditors at 23.9 percent. As in the recent quarters, debt maturing after 20 years dominated in terms of maturity profile of the debt (**Table 5.2**).

Table 5.2: External Debt by Maturity

Note: p denotes provisional data

Activities that benefited the most from external loans were transport and telecommunications; health and education; water and sanitation; infrastructure, roads in particular; and agriculture, all together absorbing USD 240.7 million, equivalent to 82.3 percent of the disbursed outstanding external debt. Domestic debt stock amounted to TZS 153.8 billion at the end of the quarter, higher than TZS 108.8 billion registered at the end of the corresponding quarter of 2018. Treasury bonds remained dominant, accounted for 70.3 percent of domestic debt stock (**Table 5.3**). The debt structure by maturity profile was the same as in the preceding quarter, where debts maturing between 2 and 10 years accounted for the largest share (**Table 5.3**).

External Sector Performance

Current account registered a deficit balance of USD 22.7 million during the quarter ending December 2019, compared with a deficit of USD 17.5 million in the corresponding quarter of 2018. Widening of current account deficit was due to an increase in the value of imports, which more than offset the increase in exports (**Table 5.4**).

The value of exports increased to USD 65.5 million in the quarter ending December 2019 from USD 49.7 million in the similar quarter of 2018. Goods exports almost doubled to USD 4.9 from USD 2.5 million in the quarter ending December 2018, largely driven by cloves (**Table 5.5**). Foreign exchange earnings from services grew by 28.4 percent over the quarters to USD 60.6 million.

Imports of goods (f.o.b) and services amounted to USD 72.8 million. The import bill was 12.1 percent higher compared with imports in the quarter ending December 2018 (**Table 5.6**). Much of the imports were capital and intermediate goods. Regarding external payments with respect to services, they more than doubled to USD 39.1 million (**Table 5.4**).

6.0 REGIONAL ECONOMIC DEVELOPMENTS

Inflation in the East African Community (EAC) region remained low and within the convergence criteria of not more than 8.0 percent. During the quarter ending December 2019, headline inflation averaged 4.8 percent compared with 0.9 percent in the corresponding quarter of 2018. All Partner States recorded increases in inflation rates, driven mostly by food prices (**Table 6.1**).

In the Southern African Development Community (SADC) region, annual headline inflation eased to 5.1 percent in the quarter ending December 2019 from 6.2 percent in the corresponding quarter of 2018 (**Table 6.1**). All SADC countries missed the convergence criteria of between 3.0 - 7.0 percent, save for Tanzania, Lesotho and South Africa. Angola, Malawi and Zambia recorded headline inflation rates above 10.0 percent. High headline inflation in Angola was mainly associated with depreciation of the local currency, while in Malawi it was due to rise in food prices. For the case of Zambia, the high headline inflation was on account of food prices following prolonged drought coupled with depreciation of the local currency.

8.0 GLOSSARY

Money supply

The sum of currency circulating outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely; narrow money (M1), broad money (M2), and extended broad money (M3).

Narrow money (M1)

Consists of currency in circulation outside banking system plus demand deposits (cheque account).

Broad money (M2)

Comprises of narrow money (M1) plus fixed-term and savings deposits of residents with banks in the country.

Extended broad money (M3)

Consists of broad money (M2) plus foreign currency deposits of the residents with banks in the country.

Reserve money (M0)

Also referred as base money, or the monetary base or high-powered money. This includes currency in circulation outside the banking system, cash held in the vaults of banks and deposits of banks kept with the Bank of Tanzania in national currency.

Currency in circulation outside banks

Notes and coins of Tanzanian shillings circulating outside the banking system, i.e. outside the Bank of Tanzania and banks.

Discount rate

The rate of interest at which the Bank of Tanzania charges on loans it extends to banks. It uses Treasury bills rate as a base plus a loaded factor, which can be changed from time to time depending on the liquidity situation in the market.

Exchange rate

The price at which one unit of a currency can be purchased with another currency.

Lombard facility

An overnight loan facility available for banks to borrow from the Bank of Tanzania at their own discretion, by pledging eligible government securities as collateral.

Lombard rate

The interest rate that the Bank of Tanzania charges bank for borrowing through Lombard facility. This rate is computed basing on the prevailing weighted average yield of 35-day Treasury bill, repo or overnight inter-bank rate, whichever is higher in the market plus a margin.

Transferable deposits

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheques, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

Other deposits

Include all claims reflecting evidence of deposit other than transferable deposits. Typical examples are saving and fixed-term deposits.

Non-food inflation

This is a measure of price movements caused by factors other than food prices.

Repurchase agreement (repo)

An arrangement involving sale of securities at a specified price with commitment to repurchase the same or similar securities at a fixed price on a specified future date.

Reverse repo

Simply the same as repurchase agreement from the buyer's viewpoint. It is an arrangement that involve buying of securities at a specified price with commitment to resale the same or similar securities at a fixed price on a specified future date.

Weighted yields of Treasury bills

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year
