## SUMMARY OF ECONOMIC DEVELOPMENTS

---

Economic activities in the country during quarter ending March 2020 were carried amidst Coronavirus (COVID-19), which caused a large impact on the global economy. The pandemic disease has affected the economy by disrupting supply and demand chains, due to containment and mitigation measures adopted to limit the spread of the disease.

In Tanzania, the impact of COVID-19 on the economy was mild in January and February 2020, because most of the country's trading partners had not imposed stringent containment and mitigation measures adopted to limit the spread of COVID-19 outbreak. In addition, there was a lagged impact of containment and mitigation measures adopted, as shipment of imports and exports are normally prepared in advance.

Reflecting intensification of containment measures adopted by trading partners to limit the spread of the pandemic disease, the impact on some sectors of the economy became much more visible in March 2020. Nonetheless, performance of most of key economic indicators remained broadly on tract.

Real gross domestic product grew to an annual rate of 7.0 in the quarter ending December 2019 compared with 7.1 in the corresponding quarter in 2018. The main drivers of the growth were construction, agriculture and mining and quarrying. Inflation remained low, below the country medium-term target of 5.0 percent and within the East African Community (EAC) and Southern African Development Community (SADC) convergence benchmarks of not more than 8.0 percent and between 3.0 and 7.0 percent, respectively. Specifically, twelve-month headline consumer price index (CPI) inflation averaged 3.6 percent in the quarter ending March 2020 compared with 3.7 percent and 3.0 percent in the preceding quarter and corresponding quarter in 2019, respectively. This was a remarkable outturn, because in EAC and SADC regions, CPI inflation averaged 5.3 percent and 41.0 percent, respectively. Inflation is projected to remain low, below 5.0 percent in 2020, owing to expected

bumper harvests in 2019/20 crop-season, subdued demand pressure for consumer goods and low oil prices.

In an effort to cushion the economy from adverse impact of COVID-19, the Bank of Tanzania intensified liquidity easing monetary policy measures, using a diversity of monetary policy tools. As a result, growth of money supply remained fairly unchanged from levels reached before the outbreak of COVID-19. Extended broad money supply (M3) recorded annual growth of 9.9 percent in March 2020 compared with 5.0 percent in March 2019. Growth of credit to the private sector continued to be steady, though at a slightly slower pace, growing at annual rate of 8.6 percent in March 2020 compared with 9.6 percent in March 2019. Interest rates on deposits and loans were relatively low during the quarter ending March 2020 compared with the corresponding quarter in 2019. The spread between one-year deposit rate and one-year lending rate narrowed to 7.07 percentage points in the quarter ending March 2020 from 8.27 percentage points in the similar quarter in 2019.

The shilling remained stable, depreciating only marginally against the US dollar, trading at an average of TZS 2,300.52 per USD compared with TZS 2,300.67 per USD in the preceding quarter. On annual basis, the shilling depreciated by 0.13 percent, consistent with inflation differential with trading partners.

The Government continued to rationalise fiscal operations to moderate the impact of COVID-19, by implementing measures to enhance revenue collection and streamlining expenditure patterns based on available resources and priorities. During the quarter ending March 2020, Government resource envelope, which comprises domestic revenue and foreign grants, amounted to TZS 5,737.8 billion, while expenditure was TZS 5,693.8 billion.

External debt stock expanded moderately, amounted to USD 22,386.7 million at the end of March 2020 from USD 21,520.0 million at the end of

the corresponding quarter in 2019. Domestic debt stock also slightly increased, to TZS 14,730.7 billion from TZS 14,108.2 billion.

The external sector of the economy experienced challenges of low earnings from tourism due to travel restrictions and lockdown adopted by trading partners to limit the spread of COVID-19. Nonetheless, overall balance of payments narrowed to a deficit of USD 143.6 million during the quarter ending March 2020 compared with a deficit of USD 320.4 million in the corresponding quarter of 2019. This was driven by improvement of current account balance to a deficit of USD 156.0 million from a deficit of USD 278.4 million largely following increase in exports, which outweighed the increase in imports. Official foreign reserves remained high, amounting to USD 5,411.3 million at the end of March 2020. The reserves were sufficient to cover about 6.2 months of projected import of goods and services.

During the fourth quarter of 2019, economic performance in Zanzibar was high. Real GDP grew by 11.1 percent, year-on-year, compared with 3.8

percent in the similar quarter of 2019. In the first quarter of 2020, economic activities related to travel (includes tourism) in Zanzibar were affected by measures adopted to limit the spread of COVID-19, such as suspension of international passenger flights and lockdown in trading partners. However, procurement of cloves increased significantly to 2,717.0 tonnes from 32.1 tonnes in the corresponding quarter of 2019, owing to cyclical nature of the crop.

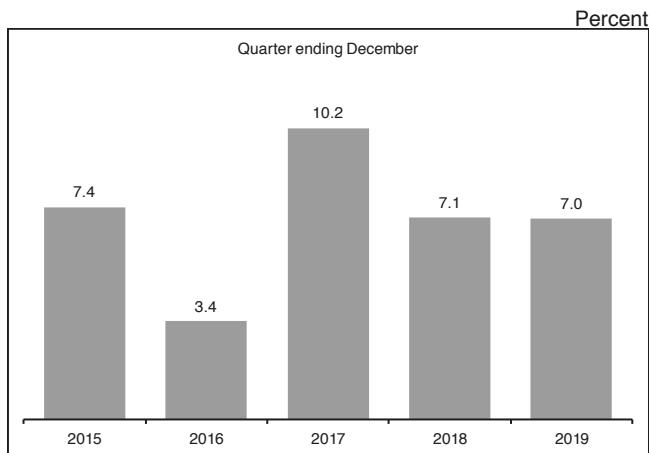

Inflation was low, although edging up moderately in Zanzibar. Twelve-month headline inflation averaged 5.4 percent in the quarter ending Mach 2020 compared with 2.9 percent in the quarter to March 2019. Government resource envelope amounted to TZS 201.4 billion, while expenditure was TZS 264.5 billion. Debt stock, comprising domestic and external debt, amounted to TZS 816.7 billion at the end of March 2020, slightly higher than TZS 815.9 billion in the corresponding in 2019. The current account balance was a deficit of USD 7.0 million compared to a surplus of USD 4.5 million in the quarter ending March 2019, driven by imports which more than offset the increase in exports.

## 1.0 OUTPUT AND PRICES

### Gross Domestic Product<sup>1</sup>

The real gross domestic product (GDP) grew by 7.0 percent year-on-year during the quarter ending December 2019, compared with 7.1 percent in the corresponding quarter of 2018 (**Chart 1.1**). Economic activities that recorded fastest growth rates were mining and quarrying, which grew by 21.5 percent, followed by information and communication (11.0 percent) and construction (11.0 percent). The high growth of mining and quarrying activity was attributed to improved management of mining industry including streamlined operations and establishment of mineral trading centers that provided market access to small scale miners.

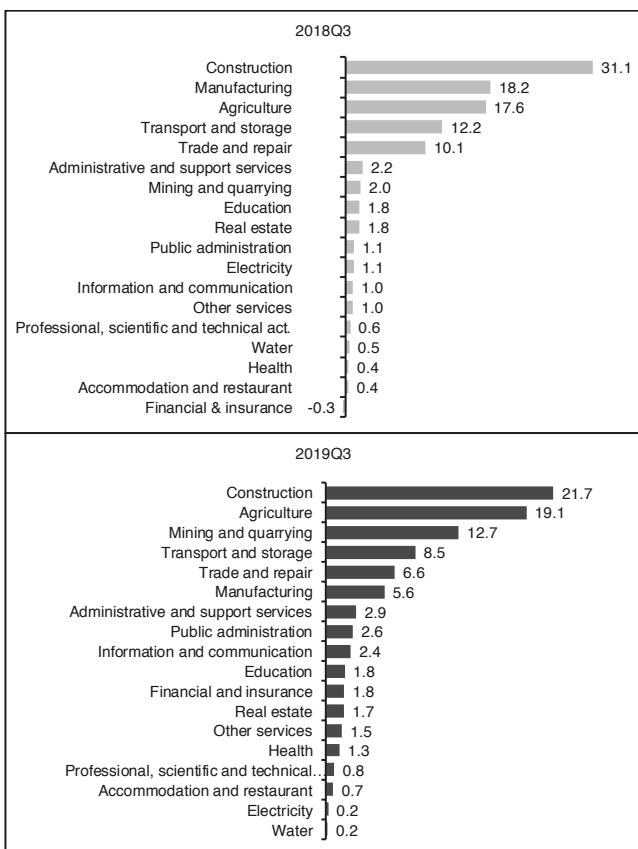

### Chart 1.1: Year-on-Year GDP Growth Rates

Source: National Bureau of Statistics

Economic activities that largely contributed to overall GDP growth were construction, agriculture and mining and quarrying, which in total accounted for nearly 53.5 percent of GDP growth (**Chart 1.2**).

### Chart 1.2: Real GDP Contribution by Activity

Source: National Bureau of Statistics and Bank of Tanzania computations

Note: Q denotes quarter

### Inflation

Inflation remained low, notwithstanding economic challenges induced by COVID-19. In the first quarter of 2020, headline inflation averaged 3.6 percent<sup>2</sup> in the quarter ending March 2020 compared with 3.0 percent in the corresponding period in 2019 (**Table 1.1**). Food and non-alcoholic beverages inflation was 5.6 percent compared with 0.5 percent, largely on account of increase in prices of maize, rice, beans and sorghum. Non-food inflation decreased to 2.3 percent from 5.3 percent in the corresponding period in 2019, owing to a decline in domestic oil (petroleum products) pump prices.

<sup>1</sup>statistics for the quarter ending March 2019 were not available at the time of publishing this report

<sup>2</sup>Inflation rate of 3.6 percent is below the country target of 5.0

percent, as well as EAC and SADC convergence criteria of a maximum of 8.0 percent and between 3-7 percent, respectively.

## Food Supply Situation

### Food Stocks

Food stocks in the country comprise of locally produced food held by National Food Reserve Agency (NFRA), private traders and households. During the quarter ending March 2020, food supply in the country remained adequate, despite pockets of food shortage in northern and lake zones. The stock of food held by the NFRA, which currently comprise of maize only, was 39,597 tonnes at the end of March 2020. During the quarter, the NFRA sold 12,901.4 tonnes of maize to private traders, World Food Program and Prisons Department (**Table 1.2**).

**Table 1.2: National Food Reserves Held by NFRA**

Period	2016	2017	2018	2019	2020
January	125,668	86,834	91,947	93,037	43,597
February	88,414	86,444	91,313	85,525	41,231

## Wholesale Prices of Food Crops

Wholesale average prices of all selected major food crops were high in the quarter ending March 2020 compared with the corresponding quarter in 2019, except round potatoes (**Table 1.3**). This was attributed to high demand for food from neighboring countries, together with domestic demand due to production shortfalls experienced in northern and lake zones during the 2018/19 crop-season. However, food prices are expected to be low in the remainder of 2020, due to satisfactory good rains in the country.

**Table 1.3: Average Wholesale Prices of Major Food Crops**

Food crop	Quarter ending			Percentage change	
	Mar-19	Dec-19	Mar-20	Dec-19 to Mar-19 to Mar-20	
				Mar-20	Mar-20
Maize	50,152.2	84,432.9	80,761.9	-4.3	61.0
Rice	165,456.8	185,191.7	186,376.4	0.6	12.6
Beans	163,936.1	195,053.5	204,616.8	4.9	24.8
Sorghum	74,541.7	102,585.7	113,519.4	10.7	52.3
Round potatoes	74,705.3	69,989.9	73,234.6	4.6	-2.0

Source: Ministry of Industry and Trade

## Domestic Pump Prices

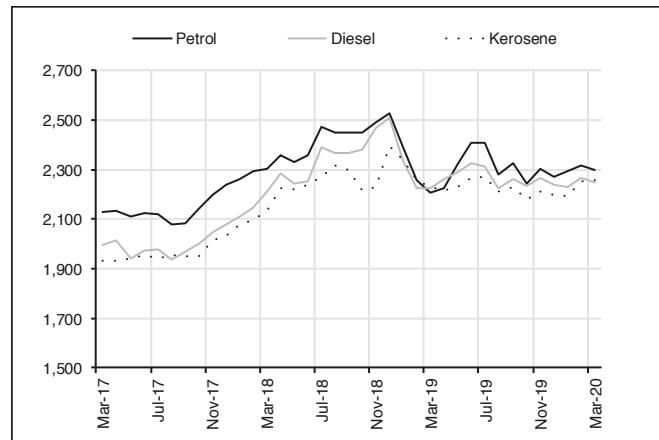

Domestic prices of diesel and kerosene were lower in the quarter ending March 2020 than in the corresponding quarter in 2019, while that of petrol increased. The decrease in diesel and kerosene prices was in line with the slowdown in global oil prices (**Table 1.4**). **Chart 1.3** shows monthly domestic pump prices in the past three years.

**Table 1.4: Average Domestic Fuel Prices**

Items	Quarter ending				
	Mar-19	Jun-19	Sep-19	Dec-19	Mar-20
Petrol	2,284.7	2,319.4	2,338.4	2,273.4	2,302.9
Diesel	2,261.3	2,291.9	2,266.4	2,247.2	2,247.9
Kerosene	2,275.7	2,237.2	2,237.3	2,197.3	2,235.5

Source: National Bureau of Statistics

## Production and Procurement of Major Commodities

### Production of Gold and Diamond

Large-scale miners produced gold and diamond valued at USD 469.1 million during the quarter ending March 2020, higher than USD 325.9 million in the corresponding period in 2019. The outturn was mostly driven by gold, whose value grew by 49.5 percent to USD 454.4 million following increase in volume sale and unit price in the world market (**Table 1.5**).

**Table 1.5: Production of Gold and Diamond**

Minerals	Unit and value	Quarter ending			Percentage change	
		Mar-19	Dec-19	Mar-20	Dec-19 to Mar-19	Mar-19 to Mar-20
Gold	Kilograms	10,063.4	12,287.9	11,646.4	-5.2	15.7
	Value (USD Million)	303.9	432.2	454.4	5.1	49.5
Diamond	Karats	114,974.6	74,416.0	98,450.0	32.3	-14.4
	Value (USD Million)	22.0	9.0	14.8	64.4	-32.7
Total value	USD Million	325.9	441.2	469.1	6.3	43.9

Source: Respective mining companies

## Procurement of Traditional Export Crops

During the quarter ending March 2020, procurement of traditional cash crops was mixed across the crops. Volume of cashew nuts and tobacco procured during the quarter was higher than in the similar quarter in 2019, while that of tea, coffee and sisal declined (**Table 1.6**). The decline in procured volume of tea was attributed to unfavourable weather which destroyed tea fields and low global demand following outbreak of COVID-19 that lead to scaling down of operations in some processing factories. In addition, heavy rains, which damaged some of feeder roads, hampered smooth transportation of green leaf from farmyards to processing factories. As for coffee, the decline was due to drought experienced in northern regions during flowering period coupled with low crop cycle, while for sisal it was on account of low global demand particularly from China, Spain and Middle East following COVID-19 pandemic.

**Table 1.6: Procurement of Traditional Export Crops**

Crop	Tonnes				
	Mar-17	Mar-18	Mar-19	Mar-20	Mar-19 to Mar-20
Cotton lint			off season		N/A
Cashew nuts	16,805.7	24,700.8	28,237.6	32,553.8	15.3

## 2.0 MONETARY AND FINANCIAL MARKETS DEVELOPMENTS

### Money Supply and Credit

During the quarter ending March 2020, the Bank of Tanzania intensified monetary policy easing measures to cushion the economy from the adverse impact of COVID-19. Consequently, liquidity in the banking system remained adequate and growth of money supply was fairly high. Extended broad money supply (M3) grew at an annual rate of 9.9 percent in March 2020, up from 9.6 percent recorded in December 2019 and 5.0 percent in March 2019 (**Chart 2.1** and **Table 2.1** and **Chart 2.2**). Broad money supply (M2), grew by 10.8 percent, compared with 11.8 percent in the year ending December 2019, and higher than 4.4 percent registered in the year ending March 2019.

Source: Bank of Tanzania and banks

Note: “---” denotes a change that exceeds 100 percent

**Chart 2.2: Annual Change of Major Components of Money Supply**

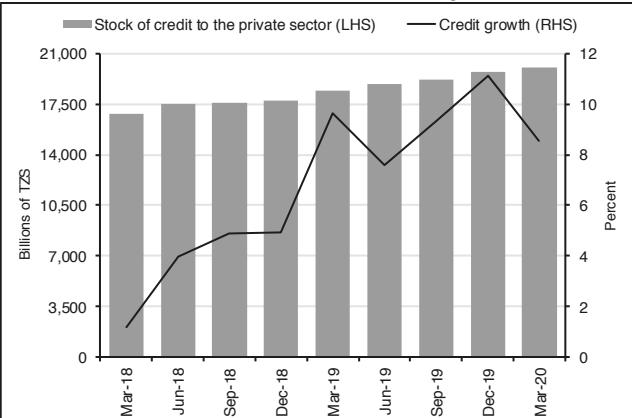

Source: Bank of Tanzania, banks and Bank of Tanzania computations

Net foreign assets of the banking system grew at an annual rate of 17.5 percent in March 2020, compared with a growth rate of 13.2 percent in December 2019 and a contraction of 6.1 percent in March 2019. The outcome was largely due to increase in foreign currency holdings of the Bank of Tanzania, following purchase of foreign exchange from banks and public institutions.

Total domestic credit by the banking system, grew by 6.5 percent in the year ending March 2020, mostly explained by expansion of credit to the private sector. Credit to the private sector recorded an annual growth of 8.6 percent in March 2020, compared to 11.1 percent registered in December 2019 and 9.6 percent recorded in the corresponding period of 2019 (**Chart 2.3**). The growth of credit to the private sector resulted from increased supply of loanable funds, partly due to accommodative monetary policy.

**Chart 2.3: Credit to Private Sector by Banks**

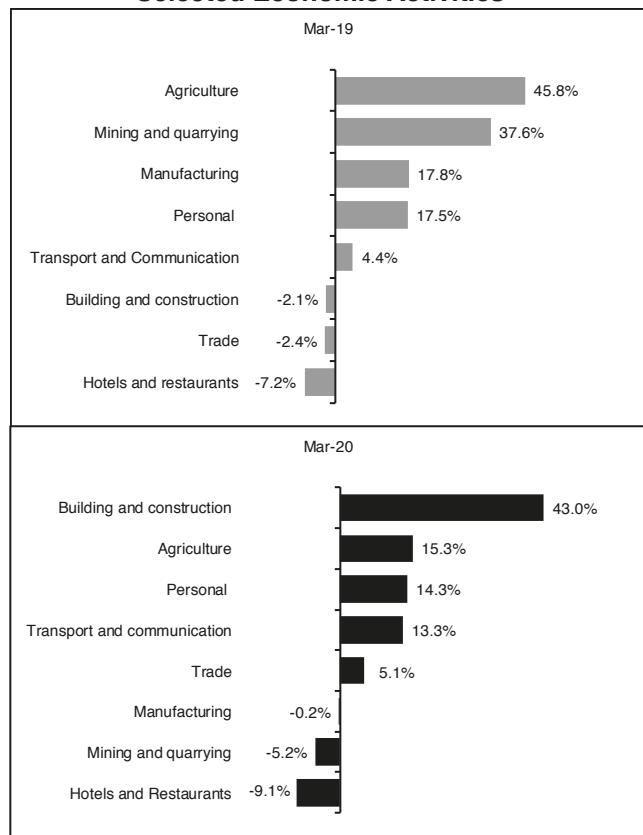

Source: Banks and Bank of Tanzania computations

Note: LHS denotes left hand scale; and RHS, right hand scale

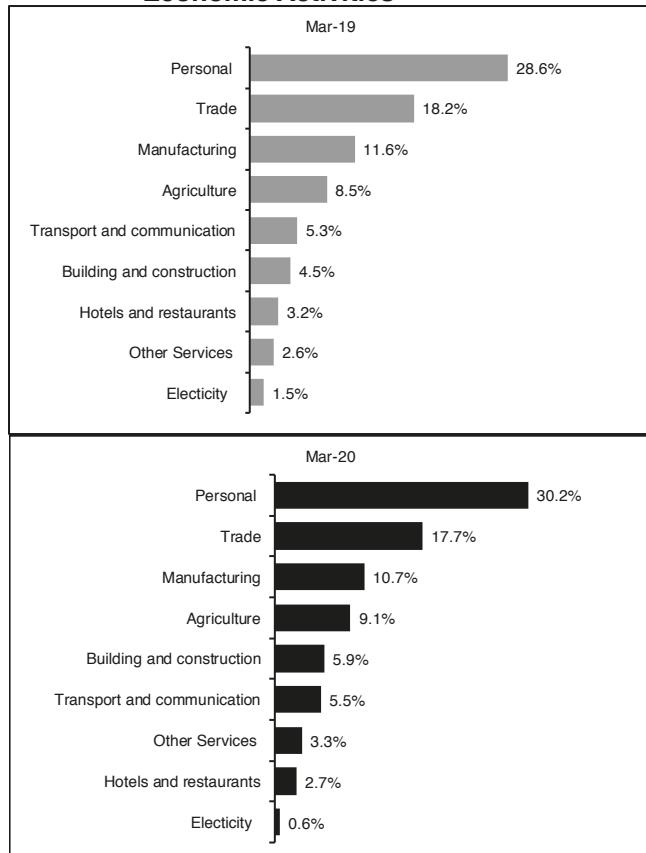

Credit extended by banks was more pronounced in building and construction, agriculture and personal-related activities (**Chart 2.4**). Personal-related activities—mostly for small and medium enterprises, and trade continued to account for the largest share of outstanding credit to the private sector, at 30.2 percent and 17.7 percent, respectively (**Chart 2.5**).

## Interest Rates

Interest rates charged by banks on loans and those offered on deposits exhibited a general downward trend in line with prevailing accommodative monetary policy. The overall lending rate decreased to an average of 16.81 percent in the quarter ending March 2020, from 16.82 percent in the quarter ending December 2019 and 17.05 percent in the corresponding quarter of 2019. Similarly, one-year lending decreased to 15.72 percent from 16.63 percent in the quarter ending December 2019 and 17.00 percent March 2019. Likewise, the overall and 12-months deposit rate eased to an average of 6.86 percent and 8.65 percent in March 2020, from 7.02 percent and 9.04 percent in December 2019 and 7.41 percent and 8.73 percent recorded in March 2019. As a result, the spread between one-year deposits rate and one-year lending rate narrowed to an average of 7.07 percentage points in March 2020 from an average of 7.59 percentage points recorded in the preceding quarter and 8.27 percentage points registered in the corresponding quarter of 2019 (**Table 2.2**).

**Table 2.2: Selected Banks' Interest Rates  
(Quarterly Average)**

## Financial Markets

The performance of most of the domestic financial markets was generally satisfactory during the quarter ending March 2020, notwithstanding the socio-economic challenges associated with the outbreak of COVID-19.

The Bank of Tanzania offered Treasury bills amounting to TZS 646.2 billion in the quarter ending March 2020, mainly for fiscal operations. The market recorded a total demand of TZS 674.5 billion, of which the Bank accepted bids worth TZS 473.2 billion. The overall weighted average yield decreased to an average of 5.54 percent in the quarter ending March 2020, from 6.06 percent recorded in the preceding quarter (**Chart 2.6**).

**Chart 2.6: Treasury Bills Market Performance**

Source: Bank of Tanzania

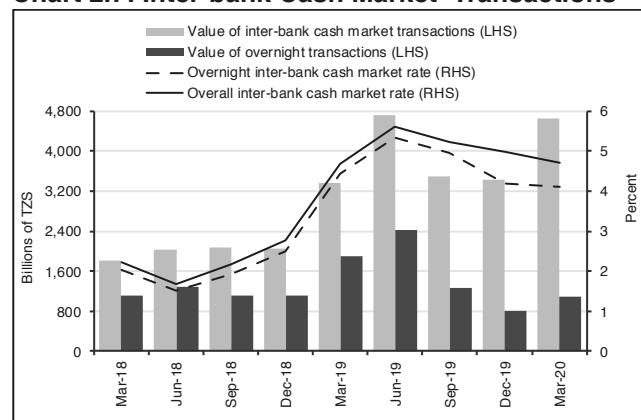

Note: LHS denotes left hand scale; and RHS, right hand scale

The Bank offered 2-, 10-, 15- and 20-year Treasury bonds amounting to TZS 853.3 billion for government financing purposes. The auctions were oversubscribed, recorded bids worth TZS 1,853.8 billion, signalling adequacy of liquidity in the system.

The successful bids during the quarter ending March 2020 amounted to TZS 813.8 billion.

During the quarter ending March 2020, the interbank cash market (IBCM) remained active, registering transactions worth TZS 4,659.3 billion, up from TZS 3,426.4 billion in the preceding quarter. The share of overnight placements remained moderate at 23.2 percent compared with 23.8 percent in the preceding quarter. Overnight interest rate decreased to an average of 4.10 percent in the quarter ending March 2020, from 4.20 percent recorded in the quarter ending December 2019. Similarly, the overall interbank cash market interest rate declined to an average of 4.71 percent from 5.00 percent (**Chart 2.7**).

**Chart 2.7: Inter-bank Cash Market Transactions**

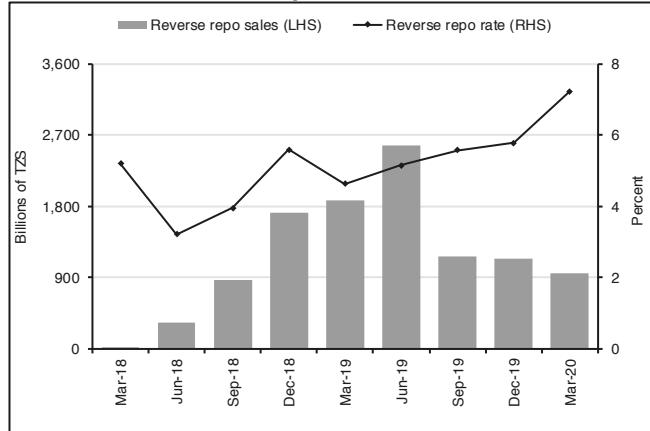

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand scale

The Bank continued to conduct reverse repurchase agreement (reverse repo) auctions in line with the prevailing monetary policy stance. During the quarter ending March 2020, reverse repo amounted to TZS 948.3 billion, compared with TZS 1,135.9 billion in the preceding quarter. Reverse repo worth TZS 978.1 billion matured compared with TZS 1,199.2 billion in the quarter ending December 2019. Reverse repo rate increased to an average of 7.23 percent in March 2020 from 5.79 percent recorded in the previous quarter (**Chart 2.8**).

**Chart 2.8: Reverse Repos Transactions**

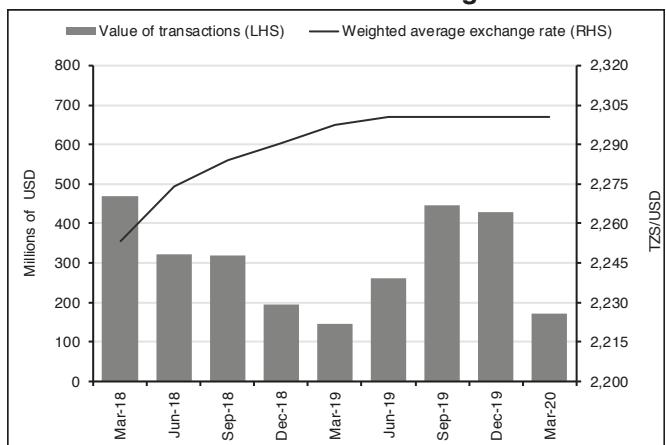

Source: Bank of Tanzania

Note: LHS denotes left hand scale; and RHS, right hand scale

Total transactions in the interbank foreign exchange market (IFEM) amounted to USD 171.7 million in the quarter ending March 2020, compared with USD 428.9 million transacted in the preceding quarter (**Chart 2.9**). The Bank purchased USD 5.0 million from the IFEM, lower than USD 185.5 million that were bought in the preceding quarter, following low season of foreign exchange inflows from cash crops and tourism related activities. The Shilling remained generally stable against the US dollar, trading at an average of TZS 2,300.52 per USD compared with TZS 2,300.67 per USD in the preceding quarter. On annual basis, the shilling depreciated marginally by 0.13 percent from TZS 2,297.61 per USD recorded in the quarter ending March 2019.

## 3.0 PUBLIC FINANCE

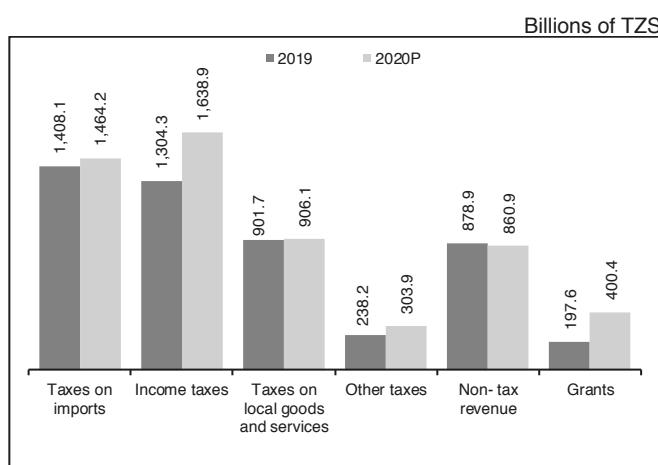

### Government Budgetary Operations

During the quarter ending March 2020, resource envelope: revenue and grants, amounted to TZS 5,737.8 billion, while expenditure was TZS 5,693.8 billion.

### Revenue and Grants

During the quarter ending March 2020, government domestic revenue amounted to TZS 5,337.4 billion, of which central government revenue was TZS 5,174.1 billion. Tax revenue collection was TZS 4,313.1 billion, an increase of 12.0 percent from the corresponding quarter in 2019. Local government collections from own sources amounted to TZS 163.3 billion compared with TZS 150.2 billion registered in the quarter ending March 2019. **Chart 3.1** shows Central Government resources during the quarters ending March.

**Chart 3.1: Government Resources for the Quarters Ending December March**

Note: p denotes provisional data

### National Debt

External debt stock was USD 22,386.7 million at the end of March 2020, a decrease of USD 6.7 million and an increase of USD 866.7 million from the preceding quarter and corresponding period in 2019, respectively. The disbursed outstanding debt accounted for 91.4 percent of the external debt stock and the balance was interest arrears.

Central government external debt was USD 17,503.8 million, a decrease of USD 68.1 million and an increase of USD 1,237.3 million from the preceding quarter and corresponding quarter in 2019, respectively.

**Table 3.1: External Debt Stock by Borrower Category**

Note: DOD denotes disbursed outstanding debt; r, revised data; and p, provisional data

External debt disbursed by creditors during the quarter amounted to USD 266.9 million, of which the central government received USD 203.3 million. Cumulative disbursements during the year ending March 2020 amounted to USD 2,374.2 million, of which 85.1 percent was received by the central Government. Debt service amounted to USD 346.1 million, comprising principal repayment of USD 279.1 million and interest payment amounting to USD 67.0 million. Cumulative debt service during the year ending March 2020 amounted to USD 2,000.2 million (equivalent to 14.3 percent of export of goods and services), of which USD 1,686.0 million was principal repayment.

The stock of domestic debt amounted to TZS

14,730.7 billion at the end of March 2020. The debt stock represented an increase of TZS 295.5 billion from the end of the preceding quarter, on account of new issuance which more than offset debt repayment. On annual basis, domestic debt stock increased by TZS 622.5 billion. Long-term instruments, comprising Treasury bonds and stocks, were the largest part of the debt, accounting for 81.8 percent of domestic debt (**Table 3.3**). The share of Treasury bills was 18.1 percent. The largest proportion of domestic debt was owed to commercial banks, accounting for 37.6 percent of domestic debt, followed by the pension funds at 29.3 percent (**Table 3.4**).

Source: Bank of Tanzania

During the quarter, the Government raised TZS 1,394.2 billion through issuance of debt securities, comprising Treasury bills worth TZS 567.0 billion and Treasury bonds amounting to TZS 827.2 billion. Domestic debt raised during the year ending March 2020 was TZS 5,353.0 billion, of which TZS 2,650.9 billion was Treasury bills and TZS 2,702.1 billion Treasury bond.

Domestic debt that fell due for payment during the quarter under review, excluding liquidity papers and overdraft payments, amounted to TZS 1,473.1 billion, compared with TZS 1,305.2 billion in the preceding quarter. Out of the debt that fell due, principal amount of TZS 1,098.7 billion was rolled over and interest amounting to TZS 374.4 billion was paid out using government revenue. Cumulative debt service during the year ending March 2020 amounted to TZS 5,059.2 billion, out of which TZS 3,667.8 billion was principal repayment and the balance was interest payment.

## 4.0 EXTERNAL SECTOR PERFORMANCE

The external sector of the economy has experienced challenges, particularly on travel receipts (includes tourism), due to measures adopted to limit the spread of COVID-19 in many countries. Nevertheless, the overall balance of payments showed a narrowing of deficit to USD 143.6 million during the quarter ending March 2020, from a deficit of USD 320.4 million in the corresponding quarter in 2019. This was partly driven by improvement in the current account balance, to a deficit of USD 156.0 million compared with a deficit of USD 278.4 million recorded in the quarter ending March 2019, largely driven by increase in exports (**Table 4.1**).

**Table 4.1: Current Account**

	Millions of USD			
	Mar-19	Dec-19	Mar-20 <sup>P</sup>	Percentage change Mar-19 to Mar-20

Source: Tanzania Revenue Authority, Bank of Tanzania, banks, and Bank of Tanzania computations

Note: \* includes adjustments for informal cross border exports; p denotes provisional data; '---', denotes change that exceed 100 percent; p, provisional data; and o/w, of which

Official foreign exchange reserves amounted to USD 5,411.3 million at the end of March 2020, sufficient to cover about 6.2 months of projected imports of goods and services excluding foreign direct investment related imports. The import cover exceeded the country benchmark of not less than 4.0 months, EAC benchmark of at least 4.5 months, and SADC benchmark of a minimum of 6 months.

### Goods Account

During the quarter ending March 2020, exports of goods rose by 16.3 percent to USD 1,444.6 million

from the corresponding quarter in 2019. The improved performance was on account of traditional exports that went up to USD 317.8 million from USD 135.1 million in the quarter ending March 2019, largely on account of increase in exportation of cashew nuts. Non-traditional exports remained broadly unchanged at USD 995.5 million, with gold accounting for 61.0 percent of non-traditional exports. Similarly, goods import increased to USD 2,085.2 million during the quarter ending March 2020 from USD 1,989.2 million recorded in the corresponding period in 2019 (**Table 4.2**). This development was driven by higher imports of petroleum products, and building and construction equipment for supporting the ongoing infrastructure projects.

**Table 4.2: Goods Imports**

Item	Millions of USD			
	Mar-19	Dec-19	Mar-20 <sup>P</sup>	Percentage change Mar-19 to Mar-20

Notes: \* includes pharmaceutical products, paper products, plastic items, optical/photographic materials, and textile apparels; and p denotes provisional data

### Services and Income Accounts

Services account recorded a surplus of USD 515.8 million in the quarter ending March 2020, lower than a surplus of USD 610.0 million during the corresponding quarter in 2019, owing to an increase in service payments coupled with decrease in service receipts. Primary income account registered a deficit of USD 140.7 million, 39.0 percent lower than the deficit in the quarter ending March 2019, mainly on account of increase in earnings from investment abroad (**Table 4.1**).

## World Commodity Prices

During the quarter ending March 2020, the average market prices of selected commodities depicted mixed developments compared with the quarter ending December 2019. Prices of oil, Robusta coffee and cotton declined, while those of other commodities increased (**Table 4.5**). A similar pattern was observed when compared with the corresponding quarter in 2019. Gold price recorded a significant increase of 21.4 percent compared with the corresponding quarter in 2019, largely associated with plunging of stock markets amid Coronavirus outbreak. The decline in price of oil, coffee and maize was on account of low global demand partly associated with intensification of Coronavirus outbreak. It is noteworthy that sustained weakening in prices of traditional exports amid intensifying COVID-19 may worsen the current account balance. Nevertheless, this downside risk is expected to be partly offset by low oil prices and buoyant gold prices in the world market.

**Table 4.3: World Commodity Prices**

Commodity	Units	Quarter ending (Three-months average)			Percentage change	
		Mar-19	Dec-19	Mar-20	Dec-19 to Mar-19	Mar-20 to Mar-19

## 5.0 ECONOMIC DEVELOPMENTS IN ZANZIBAR

### Gross Domestic Product<sup>3</sup>

Zanzibar economy grew by 11.1 percent during the fourth quarter of 2019 compared with 5.4 percent during the quarter ending September 2019 and 3.8 percent in the corresponding quarter of 2018 (**Chart 5.1**). This development was largely driven by accommodation and food services, and crops activities partly following increase in the number of tourists and production of cloves, respectively (**Chart 5.2a**). During the review period, fishing subsector recorded the highest growth partly occasioned by increase in value and volume of fish catch (**Chart 5.2b**).

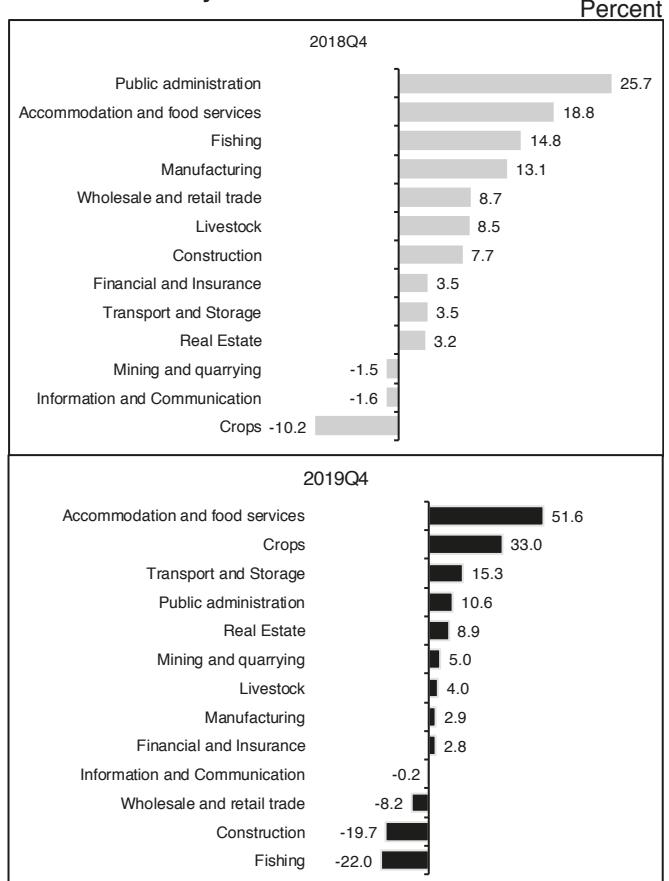

**Chart 5.1: Year-on-Year Real GDP Growth Rates**

Note: Q denotes quarter

## Procurement of Cloves and Seaweeds

During the quarter ending March 2020, cloves procurement was 2,717.0 tonnes compared with 32.1 tonnes procured in the similar quarter in 2019 due to cyclical nature of the crop. Meanwhile, procurement of seaweeds declined to 2,236.5 tonnes from 3,036.5 tonnes recorded in the quarter ending March 2019, on account of poor weather conditions (**Chart 5.3**).

**Chart 5.3: Procurement of Cloves and Seaweeds**

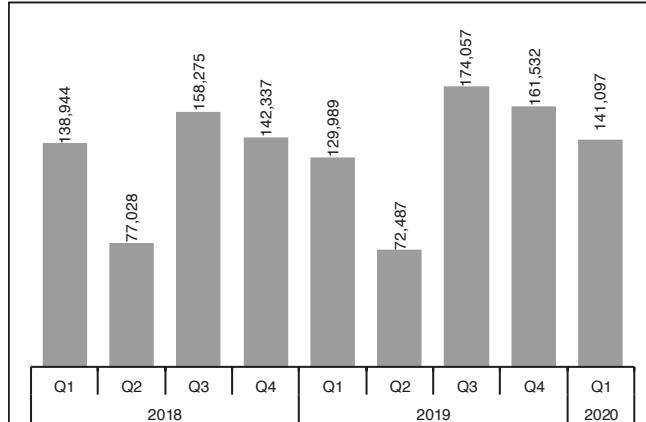

Source: Office of Chief Government Statistician, Zanzibar

Notes: Q denotes quarter

## Tourism

Tourist arrivals in the quarter ending March 2020 rose to 141,097 from 129,999 in the corresponding quarter 2019. Tourists from European countries accounted for 69.9 percent of total tourist arrivals, followed by America at 13.6 percent, and Africa at 8.9 percent. Country-wise analysis, showed that, Italy dominated, followed by France, Germany and United States. The tourists from these countries accounted for 35.4 percent of the total visitors (**Chart 5.4**).

**Chart 5.4: Number of Tourist Arrivals**

Source: Office of Chief Government Statistician, Zanzibar

Notes: Q denotes quarter

## Inflation

In the quarter ending March 2020, average headline inflation rose to 5.4 percent from 2.9 percent and 2.8 percent recorded in the previous quarter and corresponding quarter in 2019, respectively (**Table 5.1**). The outturn largely resulted from food inflation following increase in prices of some food items, particularly rice, bananas, sugar and maize flour.

**Table 5.1: Quarterly Average Inflation**

Main groups	Weights (%)	Quarter ending		
		Mar-19	Dec-19	Mar-20
Food and non-alcoholic beverages	43.6	3.5	3.4	8.4

## Public Finance

### Government Budgetary Operations

Government resources amounted to TZS 201.4 billion during the quarter ending March 2020, of which TZS 193.0 billion was domestic revenue and TZS 8.4 billion was grants (**Chart 5.5**). Tax revenue

was TZS 167.9 billion, while non-tax revenue was TZS 25.1 million.

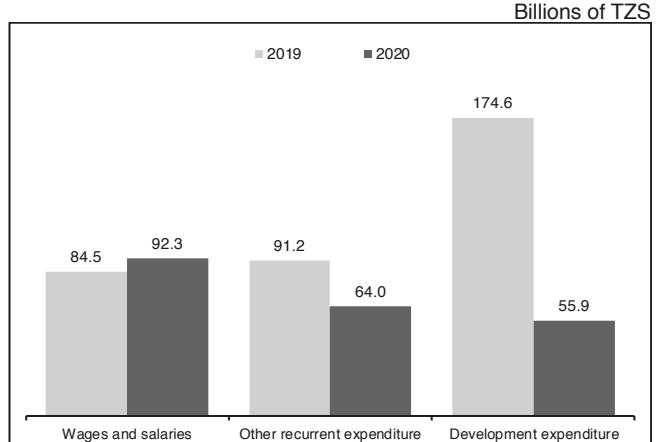

**Chart 5.5: Government Revenue by Source, Quarter ending March**

Source: Ministry of Finance and Planning, Zanzibar

Government expenditure was TZS 264.5 billion during the quarter ending March 2020. Recurrent expenditure amounted to TZS 156.3 billion, while development expenditure was TZS 55.9 billion (**Chart 5.6**). Local financing of development projects amounted to TZS 25.4 billion whereas foreign financing amounted to TZS 30.5 billion.

**Chart 5.6: Government Expenditure Quarter ending March**

Source: Ministry of Finance and Planning, Zanzibar

## Zanzibar Debt

Debt stock rose to TZS 816.7 billion from TZS 815.9 billion registered in the same quarter in 2019. The increase was largely attributed to currency depreciation. Of the total debt stock, TZS 660.9 billion was foreign debt, equivalent to USD 288.6 million, and the balance was domestic debt. The composition of the external debt was similar to the

preceding quarters with multilateral institutions, bilateral and export credit accounting for 98.4 percent. Meanwhile, maturity profile of external debt stock remained the same with debts maturing above 20 years accounting for the largest share (**Table 5.2**).

**Table 5.2: External Debt by Maturity**

Maturity period	Millions of USD					
	Quarter ending			Percentage share	Percentage change	
	Mar-19	Dec-19	Mar-20 <sup>P</sup>		Dec-19 to Mar-19 to Mar-20	Mar-20

## External Sector Performance

Current account balance registered a deficit of USD 7.0 million compared to a surplus of USD 4.5 million recorded during the quarter ending March 2019. The outturn was on account of growing import bill (**Table 5.4**).

Exports of goods and services increased to USD 68.2 million from USD 51.4 million in the quarter ending March 2019. Goods exports rose to USD 17.1 million from USD 2.0 million owing to increase in cloves exports (**Table 5.5**). Service account registered a surplus balance of USD 18.9 million, 36.3 percent lower than the balance recorded in similar quarter in 2019.

## 6.0 REGIONAL ECONOMIC DEVELOPMENTS

In the East African Community region, inflation remained low and within the convergence criteria of not more than 8.0 percent. During the quarter ending March 2020, headline inflation averaged 5.3 percent compared with 0.4 percent in the corresponding quarter in 2019. All partner states experienced an increase in inflation except Tanzania and Burundi, owing to rising food prices (**Table 6.1**).

By contrast, inflation in the Southern African Development Community (SADC) region increased significantly to 41.0 percent from 9.7 percent in the corresponding quarter of 2019 (**Table 6.1**). Inflation in all SADC member countries were within the convergence criteria of between 3.0 – 7.0 percent, except Angola, Malawi, Zambia and Zimbabwe. The high inflation in Angola and Zambia was due to rising food prices coupled with depreciation of the Angolan Kwanza and Zambian Kwacha, respectively. Inflation was notably high in Zimbabwe due to supply-related bottlenecks that caused recurring fiscal constraints and high current account deficits.

## 8.0 GLOSSARY

---

**Money supply**

The sum of currency circulating outside the banking system and deposits of residents with banks defined in various levels of aggregation. In Tanzania, three aggregates of money supply are compiled and reported, namely; narrow money (M1), broad money (M2), and extended broad money (M3).

**Narrow money (M1)**

Consists of currency in circulation outside banking system plus demand deposits (cheque account).

**Broad money (M2)**

Comprises of narrow money (M1) plus fixed-term and savings deposits of residents with banks in the country.

**Extended broad money (M3)**

Consists of broad money (M2) plus foreign currency deposits of the residents with banks in the country.

**Reserve money (M0)**

Also referred as base money, or the monetary base or high-powered money. This includes currency in circulation outside the banking system, cash held in the vaults of banks and deposits of banks kept with the Bank of Tanzania in national currency.

**Currency in circulation outside banks**

Notes and coins of Tanzanian shillings circulating outside the banking system, i.e. outside the Bank of Tanzania and banks.

**Disbursed Outstanding Debt**

This is the amount of debt that has been disbursed but yet to be paid back or forgiven.

**Discount rate**

The rate of interest at which the Bank of Tanzania charges on loans it extends to banks. It uses Treasury bills rate as a base plus a loaded factor, which can be changed from time to time depending on the liquidity situation in the market.

**Exchange rate**

The price at which one unit of a currency can be purchased with another currency.

**Gross Official Reserves**

Gross official reserves consist of external assets that are readily available to, and controlled by the Bank of

Tanzania for direct financing of balance of payments, and for indirectly regulating the magnitude of balance

of payments imbalances through intervention in foreign exchange markets. Gross official reserves comprise the Bank of Tanzania's holdings of monetary gold, special drawing rights (SDRs), reserve position in the International Monetary Fund, and foreign exchange resources, available to the Bank of Tanzania for meeting external financing needs.

**Inflation**

The rate at which the average level of prices of a basket of selected goods and services in an economy is increasing over a period of time. It is often expressed as a percentage. Inflation indicates a decrease in the purchasing power of a nation's currency.

**Food inflation**

This is a measure of price movements caused by food prices.

**Non-food inflation**

This is a measure of price movements caused by factors other than food prices.

**Core inflation**

This is a measure of price movements caused by factors other than food and energy prices over a specified period of time. It provides better indication of the effectiveness of monetary policy.

**Interbank Cash Market**

A money market in which banks extend loans to one another for a specified term of not more than 90 days. Each transaction represents an agreement between the banks to exchange the agreed amounts of currency at the specified rate on a fixed date.

**Overnight Interbank Cash Market**

The component of the money market involving the shortest term loan. Lenders agree to lend borrowers funds only "overnight" i.e. the borrower must repay the borrowed funds plus interest at the start of business the next day.

**Lombard facility**

An overnight loan facility available for banks to borrow from the Bank of Tanzania at their own

discretion, by pledging eligible government securities as collateral.

#### **Lombard rate**

The interest rate that the Bank of Tanzania charges bank for borrowing through Lombard facility. This rate is computed basing on the prevailing weighted average yield of 35-day Treasury bill, repo or overnight inter-bank rate, whichever is higher in the market plus a margin.

#### **National Debt**

Total national debt obligations that include public debt and private sector external debt.

#### **Public Debt**

Debt payable or guaranteed by the Government. Tanzania's public debt has two main components, domestic debt (which is incurred principally to finance fiscal deficit) and external debt (which is raised primarily to finance development projects and comprises of debt the Central Government owes to foreign creditors and external obligations of government departments and agencies that are guaranteed for repayment by the Central Government).

#### **Repurchase agreement (repo)**

An arrangement involving sale of securities at a specified price with commitment to repurchase the same or similar securities at a fixed price on a specified future date.

#### **Reverse repo**

Simply the same as repurchase agreement from the buyer's view point. It is an arrangement that involve buying of securities at a specified price with commitment to resale the same or similar securities at a fixed price on a specified future date.

#### **Transferable deposits**

Comprise of all deposits that are immediately convertible into currency and directly usable for making payments by cheques, draft, giro order, direct debit/credit or other payment facility without any kind of significant restriction or penalty.

#### **Other deposits**

Include all claims reflecting evidence of deposit other than transferable deposits. Typical examples are saving and fixed-term deposits.

#### **Weighted yields of Treasury bills**

This is the average yield of Treasury bills, which is weighted by the volume sold of 35-day, 91-day, 182-day, and 364-day Treasury bills, expressed in percentage per year.
